Below is a draft of an email I intend to send to Commissioner Brown and to the Central Kitsap Community Council on behalf of the Newberry Hill Heritage Park Stewardship Committee. Your suggestions, additions, or deletions are very welcome:

Dear Commissioner Brown,

I am writing to you as the president of the Newberry Hill Heritage Park Stewardship Committee. It has come to my attention that the county is considering appointing a task force through the Central Kitsap Community Council in order to oversee the planning of the park.

I believe this would be a mistake for several reasons.

First, the county has dealt with our committee for over a year with the understanding that our group would work to maintain the park and assist the county as it goes through the master planning stage.

Chip Favre explained our role clearly at that time, and we have progressed with the understanding that the major stakeholders in the park could organize as a committee to make recommendations to Kitsap County Parks and Recreation.

This group of stakeholders has evolved into a passionate and dedicated group of citizens which has spent countless hours and a large amount of resources planning for the future of this remarkable piece of land. The stewardship committee is an active coalition of land owners, horsemen, mountain bikers, members of the gun club, and others who use the park. And Klahowya Secondary School, which is located completely within the boundary of the park, has begun to plan for educational uses of the land. We are in active contact with Kitsap Fire and Rescue, whose Station 56 borders NHP, and we have approached Central Kitsap School District to establish a dynamic partnership.

This disparate group has come together with a unified goal, to protect the park in its pristine state while allowing the public non-motorized access to enjoy the forest and wetlands. Our vice-president, Joanne Corey, lives on the park border and has ridden horses there for decades. The lawyer for the group, Regina Taylor, who is also the attorney for the Kitsap Rifle and Revolver Club, has drafted our application for 501(c)3 status, a process which should be finished by the end of the year. Our treasurer, Chris Cizek, has established a bank account, and the group is currently in the middle of a fundraiser to pay for our non-profit application with the IRS.I took a group of student volunteers into the park last June to remove invasive weeds.

We are also sponsoring a trail-building seminar at Klahowya on September 12 sponsored by Subaru and the International Mountain Bike Association, a group who does trail research adopted by the National Parks Service. The training is designed to teach sustainable and environmentally appropriate trail construction techniques, and several county employees will attend.

To bring in another task force, probably one without the passion and buy-in that this group has, would not only be counter-productive, it would undermine the authority of the county parks department. Parks and Recreation has a well-developed timeline for the Master

Plan, and we believe the people of Kitsap County would be best served if we followed it. The plan provides several opportunities for community involvement and allows the citizens who care about the park to have input in its future. The 30% of a heritage park that is allowed for public use should be determined with the desires of its citizens foremost.

Also, as revenue for the county continues to dwindle, it is imperative to utilize passionate volunteers like the group that is currently protecting NHP. To alienate such a group by appointing an external task force makes no sense. To remove us from the park planning at this point would disenfranchise the people most dedicated to its success.

Our group feels as if we have an agreement with the county that has been maintained on our part. We believe the county needs to establish policy and precedence now by honoring its stated goal to follow the master planning process as it was espoused to us nearly a year ago when we committed to expend so much of our time and energy on this park.

Sincerely,
Tom Coleman
Newberry Hill Heritage Park Stewardship Committee, President

Dear Commissioner Brown,

I am writing to you as the president of the Newberry Hill Heritage Park Stewardship Committee. It has come to my attention that the County is considering appointing a task force through the Central Kitsap Community Council in order to oversee the planning of the Newberry Hill Heritage Park. I believe this would be a mistake for several reasons.

First, the Kitsap County Parks and Recreation department has been working with the stewardship committee for over a year with the understanding that the committee would work to maintain the park and assist the County as it goes through the master planning stage. Chip Favre explained our role clearly at that time, and we have progressed with the understanding that the major stakeholders in the park could organize as a committee to work with Kitsap County Parks and Recreation as part of the community outreach process to develop the park's master plan. Mr. Favre explained that this process would be very similar to the process that was used to develop the South Kitsap Regional Park Plan.

This group of stakeholders has evolved into a passionate and dedicated group of citizens which has spent countless hours and a large amount of resources planning for the future of this remarkable piece of land. The stewardship committee is an active coalition of land owners, horsemen, mountain bike riders, members of the gun club, and others who use the park. Also, we are in active contact with Kitsap Fire and Rescue, whose Station 56 borders NHP, and we have approached Central Kitsap School District to establish a dynamic partnership.

This disparate group has come together with a unified goal, to protect the park in its pristine state while allowing the public non-motorized access to enjoy the forest and wetlands. Our vice-president, Joanne Corey, lives on the park border and has ridden horses there for decades. The lawyer for the group, Regina Taylor, who is also the attorney for the Kitsap Rifle and Revolver Club, has drafted our application for 501(c)3 status, a process which should be finished by the end of the year. Our treasurer, Chris Cizek, has established a bank account, and the group is currently in the middle of a fundraiser to pay for our non-profit application with the IRS. We have coordinated a number of work parties with the Count Parks Department to remove invasive weeds and maintain trails. With direction from the County Parks Department, we have also contacted and coordinated with the Ken Drecksel and Joy Garitone from the Conservation District to develop a Stewardship Plan, similar to Illahee Forest Preserve and Hansville Greenway's stewardship plans, for the Newberry Hill Heritage Park. Work on this plan is scheduled to begin this fall.

We are also co-sponsoring, with Kitsap County Parks, Subaru of America Inc., and the International Mountain Bike Association, a trail-building seminar at Klahowya and Newberry Hill Heritage Park on September 12th. This will be a regional event that will teach sustainable and environmentally appropriate trail construction techniques

Subject: Grant Schedule/Meetings

Greg,

Are you attending the upcoming PRTPO meeting (may not have gotten acronym correct!?) on Tues. 9/15? I saw Linda mention it to Josh Peters and seems to be floating a competitive edge if we were to partner across jurisdictions - sounds like everyone is applying for those grants. I think she was mentioning on behalf of a Poulsbo application though... not sure.

Liked the idea of the County applying for $77K to support County-wide planning and letting Poulsbo apply for their own focus area - as I understand her latest emails. Towards their own application, I saw Linda propose to meet with the Squamish Tribe on Monday, 9/14. I assume we are not expected at that one; however she mentioned a follow up meeting the next Monday night 9/21 with the Squamish and I confirmed I could attend that... along with subcommittee chair Dennis Oost. Confusing stuff.

Bet its about time I get into those application materials - if you haven't... Can you direct me and provide shortcuts?! Should I be heading your way to go over an application form as early as tomorrow (Thurs/Friday largely spoken for here)? Don't think we should wait for the KRRC and Suquamish meetings on 9/21 - I see applications are due at the end of the month - maybe we should float our application to the group and get their confirmation (possible support letters?) at the 9/21 meeting.

Joanne,
I haven't heard anything even close to that. But, then again, I thought the sale price for the gun club was a misprint! Can you give me your source so I can follow up? I promise to be discreet.
What I can tell you is that because it is a Heritage Park, at least 70% must remain as open space. Also, with the new property that we just traded for, came a 300 acre conservation deed. Which means that 300 acres for that land needs to be protected. That protection will encompass the wetlands area, which flows into Chico Creek. Also, I know that the tribe has a very keen interest in protecting that area for the Chico Creek Salmon run. So, I think everything is OK, but I do want to follow up to make sure.

It was Jim Rye, sherriff so I think he may have been hopefully not right, I just don't trust anyone to not pull a fast one. I thought it sounded like for my future I would be sending out petitions to stop it, hopefully it will be something he heard that wasn't right. I do know one person that has the inside track, I think I'll give her a call. Thank god for the wetlands and deed.

Hello, Linda -

Will you be able to do this tonight? I've got a "daddy" obligation - please advise so I can make arrangements as necessary.

Thanks!

Barry,
Are you or Linda going to be there tonight at Commissioners meeting to talk on the $1,025,000 revenue contract for the agency worker health insurance ? I will be there on other topics as will be Ander's on a whole bunch of mental health contracts.
Bert

No problema. I'll be there with bells on my feet, a smile on my face, and a song in my heart.

I dunno. Bert said he'd be reviewing a bunch of stuff and Anders will be reviewing a bunch of MH contracts . . .

I hope it's a public meeting with a roomful of gun club advocates. That was sooooo much fun last time!

Thanks -

Subject: Capital City Shoot 2009 Update

Shoot Update.

I was able to work out a deal with the small cafe at the Evergreen Gun Club. they will be providing the lunch for us. It looks like it will be one hamburger, one hot dog, potato salad, chips and a soda. She will make you more but you will have to buy those on your own. She said that she would be willing to cook some basic breakfast stuff if people wanted it. Let me know if you want breakfast so she can be prepared.

I have confirmed registrations for Auburn PD, Algona PD, Spokane County SO, Lakewood PD, Puyallup PD and Redmond PD with a total of 45 Explorers. I have been contacted by Lacey PD, Tacoma PD, Issaquah PD and Tukwila PD reserving another 30 spots, but I have not received a registration e-mail as of yet. **All I need to register your post is an e-mail with the first/last name and shirt sizes of your advisors and explorers attending. The waivers, firearms verification and fees are due the day of the event. The registration deadline is October 9th or the first 90 explorers.**

The event will be held on October 17th at the Evergreen Sportsmen's Club (12736 Marksman Road SW, Olympia, WA., 98512-9200). Registration will be from 0630 - 0730hrs. Safety Briefs from 0730 - 0800hrs. The events will start at 0800hrs and be finished by 1700hrs.

Each Explorer will need 75 rounds of 9mm ammunition. Fees are $45 for Explorers competing and $15 for all non-competitors.

The events will be a Marksmanship course (50 rounds), Tactical course (25 rounds), Obstacle course (some airsoft), Video simulator, Search for suspects (airsoft) and a Traffic Stop gone wrong (airsoft).

Please feel free to e-mail me if there are any questions.

See you there.
Ofc. Paul Evers
