

BUSINESS AND RESIDENTIAL NOTICE TEMPLATE

Business and Residential Notice

In Treatment Area In ¼ Mile Notification Area

Distribution Date: *July 14, 2021*

Long Lake will be treated with aquatic herbicides on or between July 26 and October 31, 2021.

Product(s) planned for use: *Endothall, Diquat, Fluridone (Sonar Q and Sonar SRP), Imazamox*

Active ingredient(s): *Endothal acid, Diquat dibromide, fluridone, ammonium salt of imazamox.*

Plants/Algae targeted: *White lily (numphaea odorata), Brazilian elodea (Egeria densa), Eurasian water milfoil (Myriophyllum spicatum), curly-leaf pondweed (Potamogeton crispus). Also targeting extreme densities of Potamogeton praelongus, P. zosteriformis, P. pectinatus and P. filiformis*

Location of treatment(s): *See enclosed map*

The applicator will post signs in the treated and potentially affected areas no more than 48 hours prior to treatment. The signs will describe any water use restrictions or advisories.

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact AquaTechnex at (855)245-5253 to arrange an alternate water supply.

Note: Business and residential notification only goes ¼ mile from each treatment site. Check the product label to ensure that treatment does not impact potable water users more than ¼ mile from treatment area.

If you want additional notification prior to treatment, or have further questions, please contact Jennifer Haro at Kitsap County at (360)307-4212 or jharo@co.kitsap.wa.us using the information above.

This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology. Permit No. WAG994398.
