Yeah, self-inflicted hurt.

Read in the Tribune this morning that the City Manager is requiring a salary freeze and 74 job reductions, mostly from unfilled/vacant positions. The article says management is not being targeted at this time.

Subject: Drafts for KRRC
Attachments: Property and 2009 Aerial Tabloid.pdf; Property and Buffer Map Tabloid.pdf

Diane,

Here are the remaining drafts for the KRRC project.

The Property & Buffer map is to show the 4-mile buffer as requested.

The Aerial Imagery Map does not need to have the buffer so I have zoomed in to 1:24K. This was a judgment call on my part but I could confirm with Ms Taylor if this is what she wants. The Aerial Imagery layout would be a template for the other years requested of Imagery (2007, 2005, and 2001).

Both of these maps have been requested as 11x17 and as poster-size.

Everyone is in ready mode for the lay off slips. City government and the utility are two different entities which I'm sure you know. We typically try to separate ourselves from downtown, we generate budget through sales and they generate tax based funds. The utility is supposed to start talking to people around the 15th of October, not really sure if that is a rumor or fact. Not a very comfortable feeling.

Please check with her regarding the scale for the imagery maps. My impression is that the focus is on the change detection at the KRCC property itself, so she may wish to see the imagery maps at a different scale.

Otherwise looks fine.

BTW a courier picked up the maps yesterday after you left.

Richard,

It was good to meet you last night. I am following up on your suggestion that I tour the site. As promised, I did inquire of the Prosecutor's Office today about the possibility of my touring to KRRC site. Here is their answer:

1. I am not an agent of the Prosecutor's Office and have no ability to discuss or negotiate anything having to do with the lawsuit
2. In my capacity as a County Commissioner, I am free to tour the site upon an invitation from the Club's Board of Directors, if they so desire.
3. In my capacity as a County Official, anything that I see on the site is disclosable to other County staff.

If the Club sees value in my visiting the site I am sure that it would be informative for me.

Thanks again for taking the time to share your thoughts.

Mr. Bower

I've written you twice. To date I have heard nothing from you or your office.

Please understand. The lawsuit against Kitsap Rifle and Revolver Club is a travesty. You know it, I know it and all of the gun owners know it. We are passionate about our gun rights and a place to safely shoot. If you think you can "ride this controversy out" without getting involved and count on the "short memory" of voters to save you politically you are WRONG. So far you have chosen to ignore my letters. I will never forget if you chose not to get involved. This may very well doom any political future for you in Kitsap County.

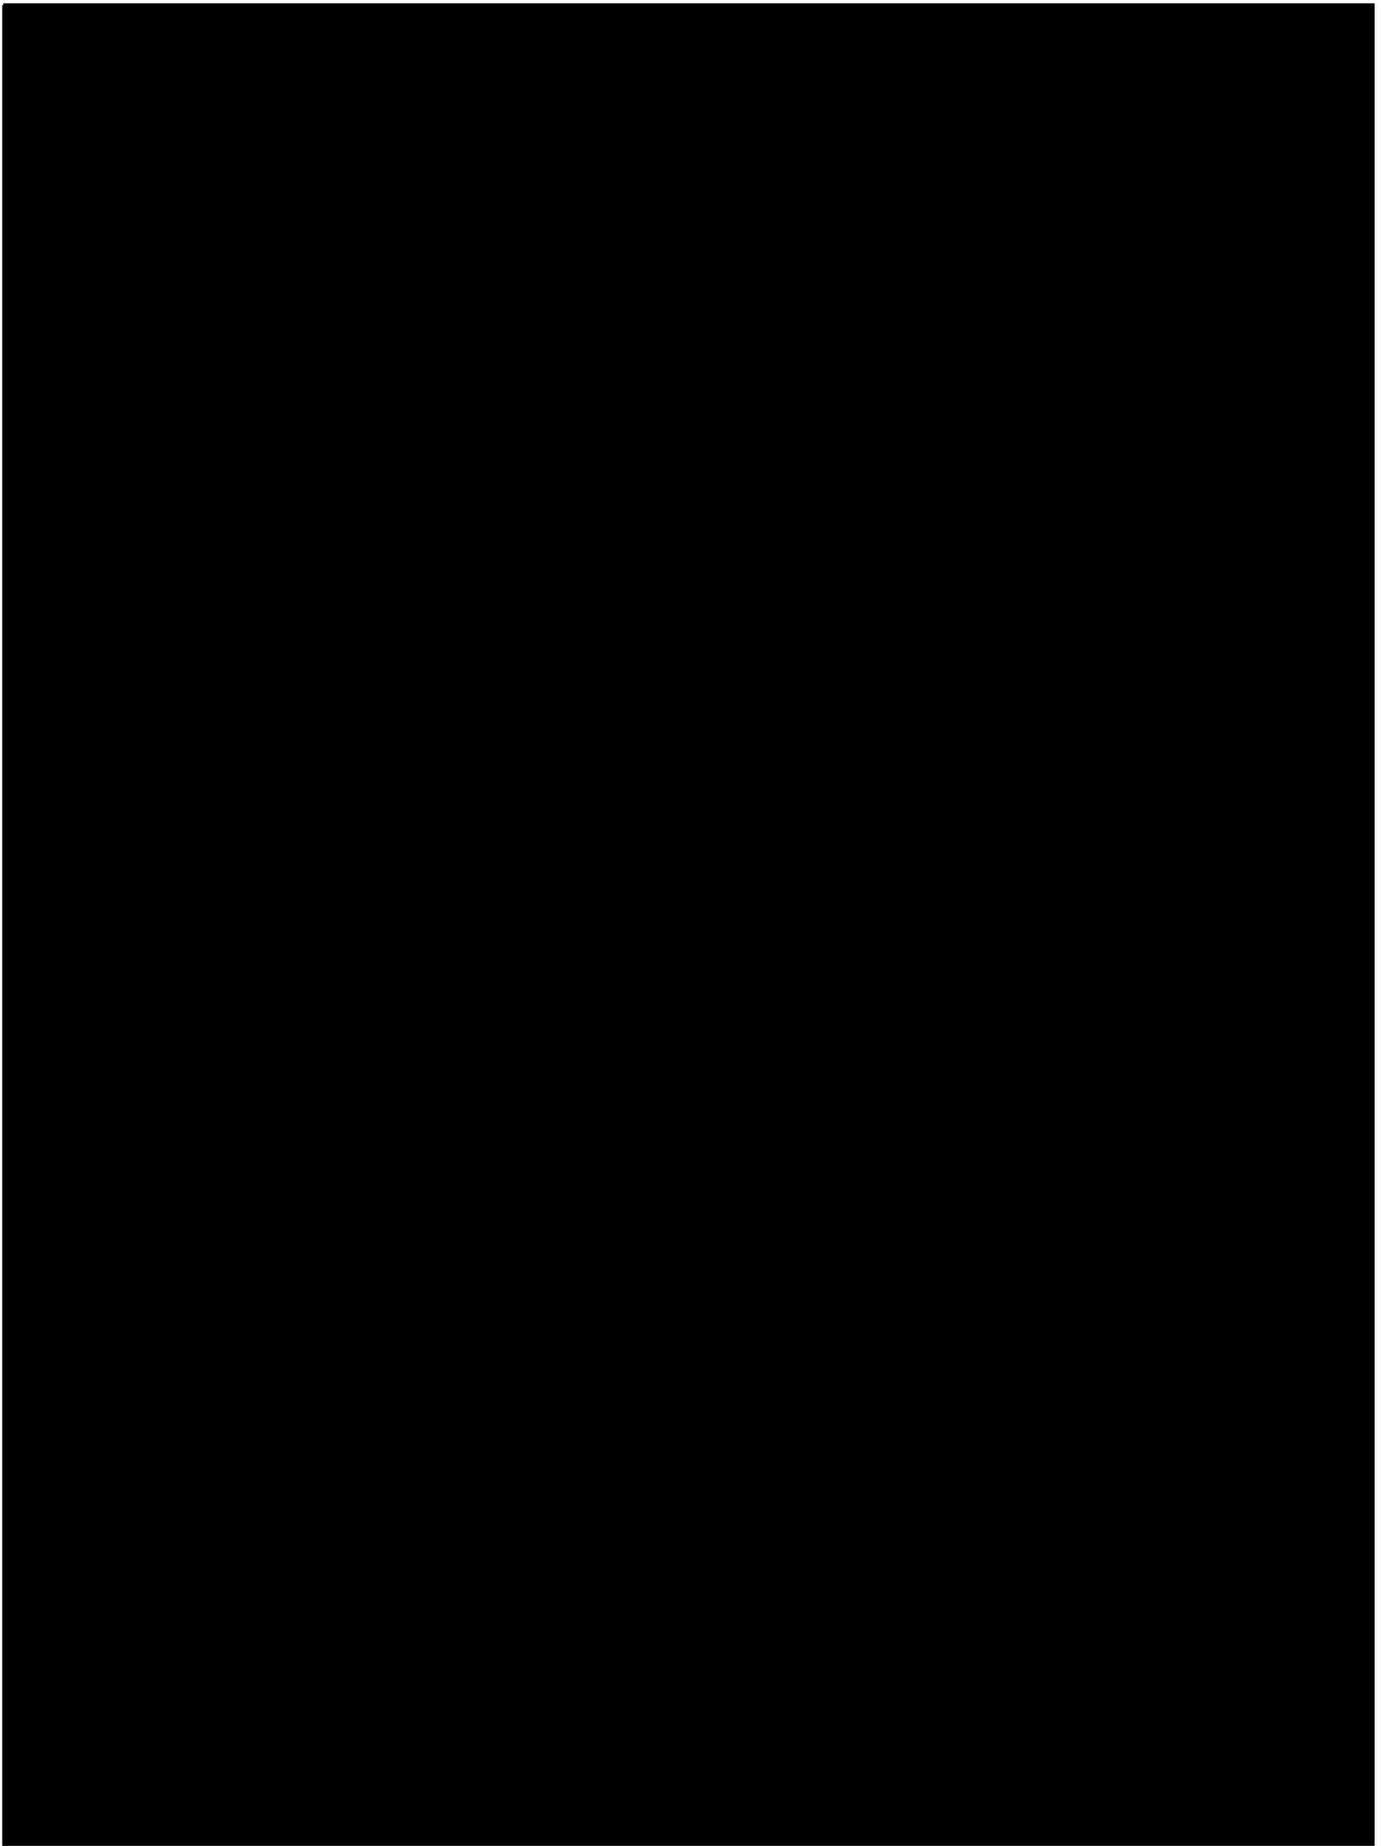

I urge you to be a person of your word and a person of character. Get involved and stop this travesty.

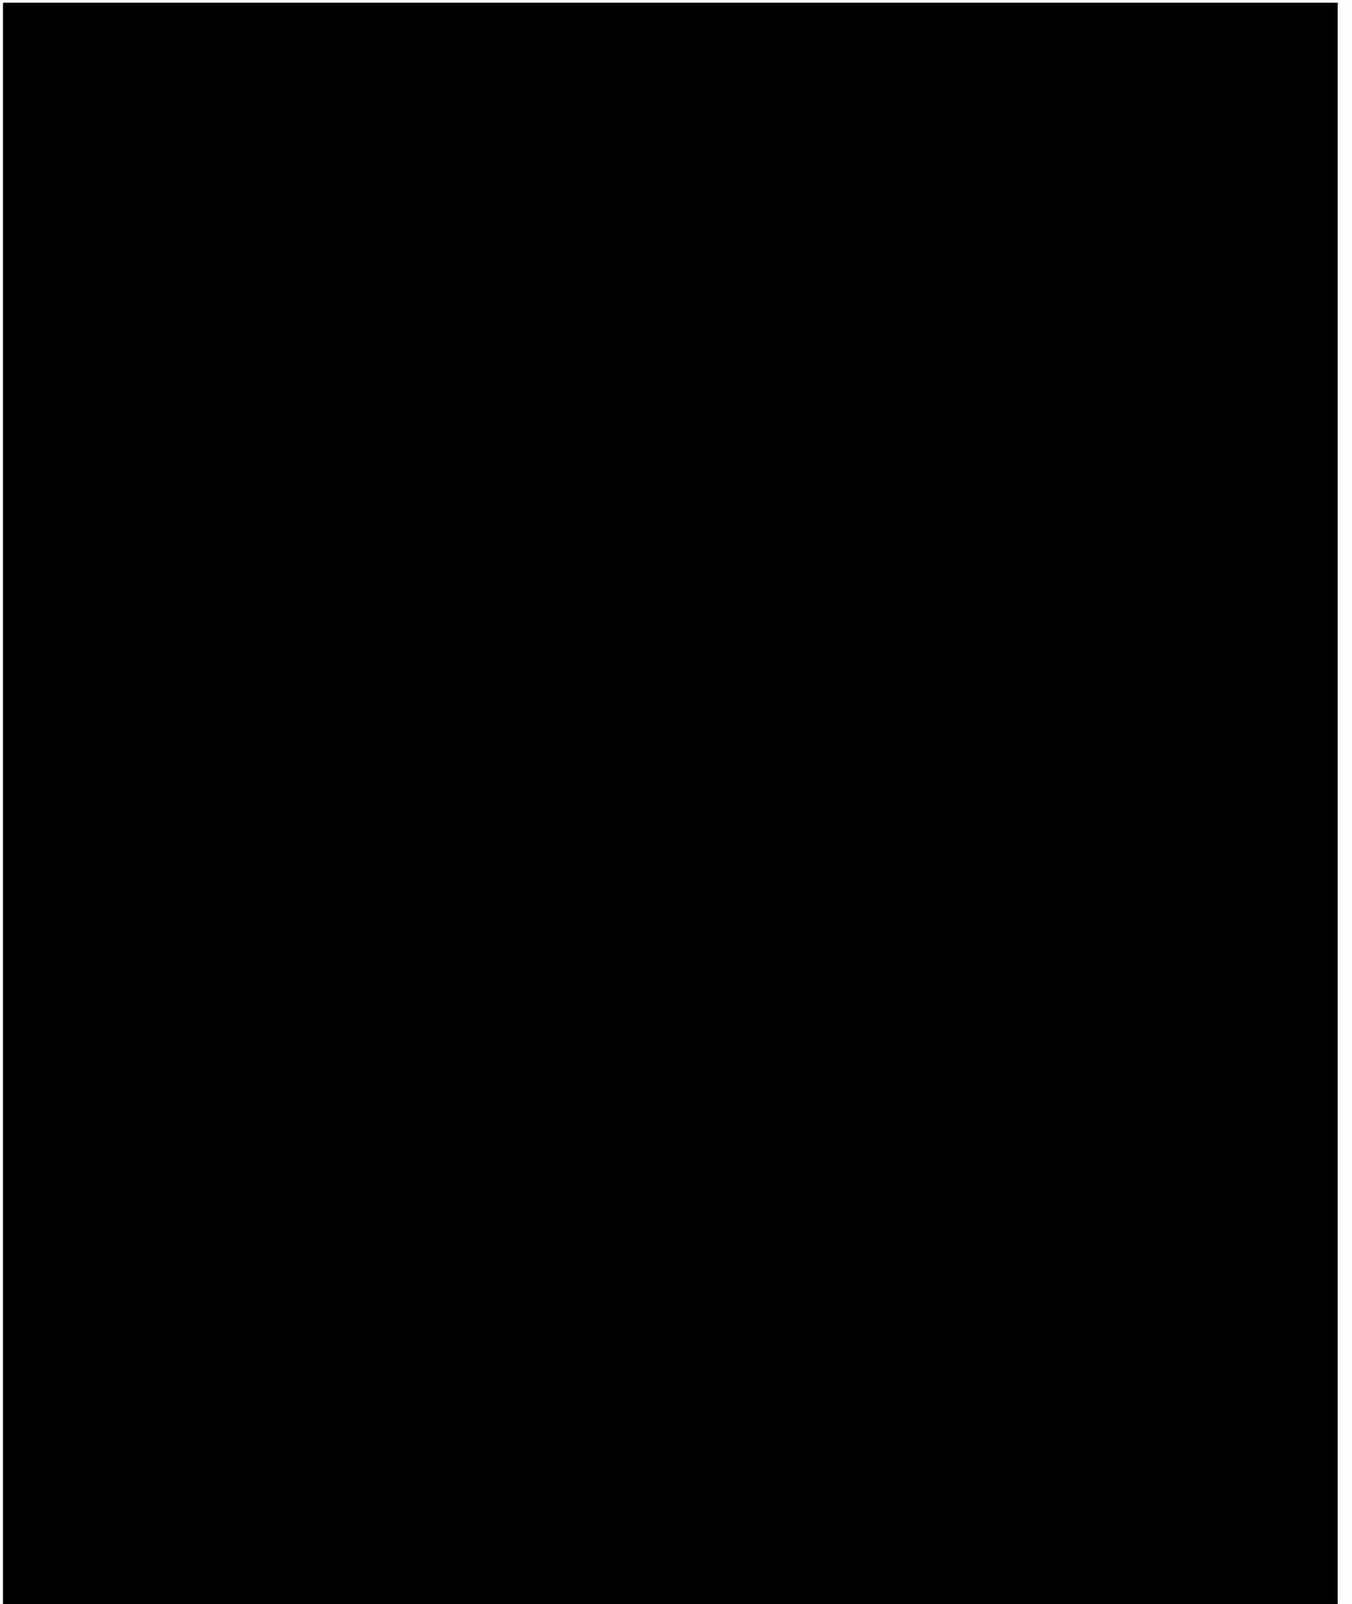

Richard Lively
Kitsap County Resident and voter

Subject: Public Records Request
Attachments: Wamsher PDR 9-23-10 (Parks).pdf; 5 day letter KRRC(9-29-10).doc

All - Attached is a sample copy of a Pubic Records Request which our office received this week, as well as a draft 5-day letter that will be going out in response. To date I have received 30 identical record requests, including one near identical request from the Kitsap Sun. This does not include 4 other Kitsap Rifle and Revolver Club PDRs that have been received in the past few days. Since all the members of the gun club have been encouraged to submit PDRs, I anticipate even more request.

Due to the broad scope of these requests, almost any office or department could potentially have records related to these requests. As such, PLEASE review your files and forward me copies of any and all records you have that deal with the Kitsap Rifle and Revolver Club and/or any other gun club.

I will work directly with the IS Department to coordinate the collection of email records, so please direct you attention primarily toward any other types of records (reports, studies, presentations, memos, notes, etc.).

Thanks!...and Have a Nice Day! - Don

Public records officer: Kitsap County Parks and Recreation

Dear Mr. Dunwiddie,

Re: Request for Disclosure of Public Information and Records
(Revised Code of Washington 42.56.001 et seq.)

Public records officer: Kitsap County Department of Community Development

Pursuant to RCW 42.56.001 et seq., please produce all records, including but not limited to: documents, records of contacts, correspondence, electronic, printed, handwritten, typed, filmed or recorded material, or other representations of any kind, or anything pertaining, describing, referring or relating, directly or indirectly in whole or in part, to the subject matter referenced below.

Any references to "Kitsap Rifle & Revolver Club", "Kitsap Gun Club", "Gun Club", "KRRC", "K.R.R.C." (herein after "KRRC") or other variations and abbreviations of same. Any references to the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312. And more specifically:

Any references for safety complaints for KRRC and/or the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312

Any references for safety complaints for other ranges & like facilities (e.g. paintball, archery,

etc.)

Any references for other complaints for KRRC (non-safety issue)

Any references for other complaints for other ranges (non-safety issues)

Search every record for permits required of other ranges

Search every record for requests for safety inspections of KRRC

Search every record for requests for safety inspections of other ranges and like facilities

Search every record for every facility that the public goes that must present a "safety plan"?

Every photograph of all shooting ranges on file

Every report on KRRC, & supporting notes

List of neighbors/neighborhoods who claim they are endangered

Every photo of KRRC, aerial or otherwise

Health department reports & records

Wildlife reports and records for said property

Wetlands information (if any) on KRRC land

Correspondence with other agencies about KRRC

In the event that you determine some portion of the requested documents to be exempt from release, please notify me of such action and identify any exemption(s) that is invoked. I request the release of any portion of the document or pieces of information that is not exempt. I further request that all documents stored in electronic form be provided electronically if possible. If documents are temporarily unavailable, I request explanation of same and release when they become available.

Sincerely,

James and Patti Wamsher

RE: Public Records Request

Dear Mr. & Mrs. Wamsher,

Thank you for the three public records requests you submitted to the Kitsap County Prosecutor's Office, Kitsap County Sheriff's Office and the Kitsap County Parks and the Recreation Department dated September 23, 2010 and received on September 27, 2010.

You have requested:

"all records, including but not limited to: documents, records of contacts, correspondence, electronic, printed, handwritten, typed, filmed or recorded material, or other representations of any kind, or anything pertaining, describing, referring or relating, directly or indirectly in whole or in part, to the subject matter referenced below.

Any references to "Kitsap Rifle & Revolver Club", "Kitsap Gun Club", "Gun Club", "KRRC", "K.R.R.C." (Herein after "KRRC") or other variations and abbreviations of same. Any references to the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312. And more specifically:

Any references for safety complaints for KRRC and/or the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312

Any references for safety complaints for other ranges & like facilities (e.g. paintball, archery, etc.)

Any references for other complaints for KRRC (non-safety issue)

Any references for other complaints for other ranges (non-safety issues)

Search every record for permits required of other ranges

Search every record for requests for safety inspections of KRRC

Search every record for requests for safety inspections of other ranges and like facilities

Search every record for every facility that the public goes that must present a "safety plan"?

Every photograph of all shooting ranges on file

Every report on KRRC, & supporting notes

List of neighbors/neighborhoods who claim they are endangered

Every photo of KRRC, aerial or otherwise

Health department reports & records

Wildlife reports and records for said property

Wetlands information (if any) on KRRC land

Correspondence with other agencies about KRRC"

This records request is written very broadly. In order to provide you with the specific records you are requesting and to help our office clarify the scope of this request, could you please provide our office with:

- A specific timeframe for these records?
- Can you clarify what you mean by "Search every record for permits required of other ranges"? Specifically, to what kinds or types of ranges are you referring?
- Can you clarify what you mean by "Search every record for every facility that the public goes that must present a "safety plan"? Does this mean you are requesting records pertaining to the safety instructions/plans for all shooting ranges within the county? If not, to which specific facilities do you refer?

Any clarification you can provide that will help us define the scope of your request would be appreciated.

The Kitsap County Health District is an independent agency. As such, requests for "Health Department reports and records" should be directed directly to that agency. It is also suggested that you directly contact the Washington State Department of Natural Resources and the Washington State Department Fish and Wildlife for records regarding "Wildlife reports and records for said property" and "Wetlands information (if any) on KRRC land". The County will provide records obtained from these agencies, some of which result from records requests answered by the agencies (e.g. DNR). Can you identify other agencies for which you believe the County may possess records?

All records responsive to this request will be reviewed and prepared for release. However, due to the broad scope of your request, our office does not anticipate completing its response any sooner than December 31, 2010. As records become available for release we intend to provide them in installments. We would like your input on whether we should post the records on the county website as they become available.

If for any reason we must withhold or redact information from a document, you will be notified as to which document this applies, and the reason why.

If you have additional questions or concerns please feel free to contact me at any time.

Sincerely,

Don Burger, Records Coordinator

Subject: Public Records Request

All - Attached is a sample copy of a Pubic Records Request which our office received this week, as well as a draft 5-day letter that will be going out in response. To date I have received 30 identical record requests, including one near identical request from the Kitsap Sun. This does not include 4 other Kitsap Rifle and Revolver Club PDRs that have been received in the past few days. Since all the members of the gun club have been encouraged to submit PDRs, I anticipate even more request.

Due to the broad scope of these requests, almost any office or department could potentially have records related to these requests. As such, PLEASE review your files and forward me copies of any and all records you have that deal with the Kitsap Rifle and Revolver Club and/or any other gun club.

I will work directly with the IS Department to coordinate the collection of email records, so please direct you attention primarily toward any other types of records (reports, studies, presentations, memos, notes, etc.).

Thanks!...and Have a Nice Day! - Don

Public records officer: Kitsap County Parks and Recreation

Dear Mr. Dunwiddie,

Re: Request for Disclosure of Public Information and Records
(Revised Code of Washington 42.56.001 et seq.)

Public records officer: Kitsap County Department of Community Development

Pursuant to RCW 42.56.001 et seq., please produce all records, including but not limited to: documents, records of contacts, correspondence, electronic, printed, handwritten, typed, filmed or recorded material, or other representations of any kind, or anything pertaining, describing, referring or relating, directly or indirectly in whole or in part, to the subject matter referenced below.

Any references to "Kitsap Rifle & Revolver Club", "Kitsap Gun Club", "Gun Club", "KRRC", "K.R.R.C." (herein after "KRRC") or other variations and abbreviations of same. Any references to the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312. And more specifically:

Any references for safety complaints for KRRC and/or the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312

Any references for safety complaints for other ranges & like facilities (e.g. paintball, archery,

etc.)

Any references for other complaints for KRRC (non-safety issue)

Any references for other complaints for other ranges (non-safety issues)

Search every record for permits required of other ranges

Search every record for requests for safety inspections of KRRC

Search every record for requests for safety inspections of other ranges and like facilities

Search every record for every facility that the public goes that must present a "safety plan"?

Every photograph of all shooting ranges on file

Every report on KRRC, & supporting notes

List of neighbors/neighborhoods who claim they are endangered

Every photo of KRRC, aerial or otherwise

Health department reports & records

Wildlife reports and records for said property

Wetlands information (if any) on KRRC land

Correspondence with other agencies about KRRC

In the event that you determine some portion of the requested documents to be exempt from release, please notify me of such action and identify any exemption(s) that is invoked. I request the release of any portion of the document or pieces of information that is not exempt. I further request that all documents stored in electronic form be provided electronically if possible. If documents are temporarily unavailable, I request explanation of same and release when they become available.

Sincerely,

James and Patti Wamsher

RE: Public Records Request

Dear Mr. & Mrs. Wamsher,

Thank you for the three public records requests you submitted to the Kitsap County Prosecutor's Office, Kitsap County Sheriff's Office and the Kitsap County Parks and the Recreation Department dated September 23, 2010 and received on September 27, 2010.

You have requested:

"all records, including but not limited to: documents, records of contacts, correspondence, electronic, printed, handwritten, typed, filmed or recorded material, or other representations of any kind, or anything pertaining, describing, referring or relating, directly or indirectly in whole or in part, to the subject matter referenced below.

Any references to "Kitsap Rifle & Revolver Club", "Kitsap Gun Club", "Gun Club", "KRRC", "K.R.R.C." (Herein after "KRRC") or other variations and abbreviations of same. Any references to the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312. And more specifically:

Any references for safety complaints for KRRC and/or the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312

Any references for safety complaints for other ranges & like facilities (e.g. paintball, archery, etc.)

Any references for other complaints for KRRC (non-safety issue)

Any references for other complaints for other ranges (non-safety issues)

Search every record for permits required of other ranges

Search every record for requests for safety inspections of KRRC

Search every record for requests for safety inspections of other ranges and like facilities

Search every record for every facility that the public goes that must present a "safety plan"?

Every photograph of all shooting ranges on file

Every report on KRRC, & supporting notes

List of neighbors/neighborhoods who claim they are endangered

Every photo of KRRC, aerial or otherwise

Health department reports & records

Wildlife reports and records for said property

Wetlands information (if any) on KRRC land

Correspondence with other agencies about KRRC"

This records request is written very broadly. In order to provide you with the specific records you are requesting and to help our office clarify the scope of this request, could you please provide our office with:

- A specific timeframe for these records?
- Can you clarify what you mean by "Search every record for permits required of other ranges"? Specifically, to what kinds or types of ranges are you referring?
- Can you clarify what you mean by "Search every record for every facility that the public goes that must present a "safety plan"? Does this mean you are requesting records pertaining to the safety instructions/plans for all shooting ranges within the county? If not, to which specific facilities do you refer?

Any clarification you can provide that will help us define the scope of your request would be appreciated.

The Kitsap County Health District is an independent agency. As such, requests for "Health Department reports and records" should be directed directly to that agency. It is also suggested that you directly contact the Washington State Department of Natural Resources and the Washington State Department Fish and Wildlife for records regarding "Wildlife reports and records for said property" and "Wetlands information (if any) on KRRC land". The County will provide records obtained from these agencies, some of which result from records requests answered by the agencies (e.g. DNR). Can you identify other agencies for which you believe the County may possess records?

All records responsive to this request will be reviewed and prepared for release. However, due to the broad scope of your request, our office does not anticipate completing its response any sooner than December 31, 2010. As records become available for release we intend to provide them in installments. We would like your input on whether we should post the records on the county website as they become available.

If for any reason we must withhold or redact information from a document, you will be notified as to which document this applies, and the reason why.

If you have additional questions or concerns please feel free to contact me at any time.

Sincerely,

Don Burger, Records Coordinator

Kitsap County et al vs. Kitsap County Rifle and Revolver Club et al
Pierce County Superior Court Cause No. 10-2-12913-3

Last Updated: 15-Sep-2010

Russell D. Hauge
Prosecutor
Jan 2007 - Dec 2010 (D)
Biography

What is the action?

Kitsap County has filed a civil enforcement action in Pierce County Superior Court to enforce the Kitsap County Code and to seek a declaratory judgment that the Kitsap Rifle and Revolver Club has exceeded its legal non-conforming ("grandfathered") land use status. For several decades and up through the 1990's, the Club's facilities consisted of a single pistol range and a single rifle range at 4900 Seabeck Highway SW in central Kitsap County. The Club has dramatically changed its facilities and its uses of the range, but the Club has refused to apply for land use, building or site development permits or to undergo any public review process.

What's changed at the gun range?

- Over the last decade, the Club has transformed its shooting range:
1. Expanding from two to at least ten shooting areas by adding several "tactical" shooting areas including 360-degree and 270-degree shooting bays, without obtaining an independent professional range safety analysis.
 2. Allowing for-profit training businesses to operate on the premises contrary to applicable zoning.
 3. Hosting "practical shooting" competitions in which hundreds of rounds of ammunition are fired each day for several weekends each year.
 4. Allowing and encouraging use of automatic weapons and high-caliber weapons at the range, such as the .50 caliber Barrett BMG which is capable of firing a bullet over four miles.
 5. Allowing users of the range to shoot at targets rigged with materials which explode upon impact.
 6. Clearing, grading and filling protected stream and/or wetland buffer areas without first submitting to review under the County's Critical Areas Ordinance. The Club's property includes a stream and wetlands in the headwaters of Chico Creek.
 7. Converting the range from a daylight-hours only operation into a lighted facility that can be used for shooting anytime from 7 a.m. to 10 p.m. seven days a week year round.

Public Hours of Operation:

8:30 am - 11:30 am
1:00 pm - 4:30 pm

(360) 337-7174

To its neighbors, the Club used to be a minor source of background noise that was audible from the outdoors or with a house's windows open. Today, the Club is a frequent source of loud, prolonged, and disruptive gunfire that can be heard by hundreds of Kitsap County residents even with their windows closed.

Why now?

Residents downrange of the Club have filed dozens of complaints to Kitsap County regarding the sound levels and intensity of gunfire and shooting. It has come to our attention that shooting at the Club may pose a danger to the public in "surface danger zones" downrange of the Club, and a professional range expert has opined that shooting at the Club must stop until it undergoes a complete and independent professional range safety review and can be proven or made safe. To delay action on this evidence could be a dereliction of our duties to the public.

This lawsuit is about whether and how the Club can operate its outdoor shooting range safely and legally. This lawsuit demands a public process to evaluate what uses can be permitted at the Club's current property. Like any lawsuit, the allegations of this action must be proven in a court of law.

MEMORANDUM FOR RECORD

Date: 16 August 2010

RE: NWS-2010-449

After the last email sent to KKRC on 12 April 2010 I have not received any response. I have called multiple times and have not been able to leave a message on any machine and have not been able to talk with any representatives. I have been in contact with Linda Storm of EPA to see what interest EPA may have in lending support from a civil and criminal authority standpoint to enable a site visit to occur.

I have had several emails from concerned citizens which have greatly informed the alleged work that was done on KKRC property within wetlands. I have also been continuing to coordinate with Neil Wachter from Kitsap County and other state, Federal and Tribal agencies. All indicated they have likewise not received any permission to enter the property to perform a site visit.

I am drafting a letter with the Colonel's signature block and language indicating EPA's interest in the case and greater enforcement authorities. The draft letter will need to be reviewed by my senior scientist and section chief.

To: Jordan, Jess NWS
Subject: New Construction and Filling of Wetlands
Attachments: KRRC Construction in Wetland of 12 June 2010.pptx

Good morning Mr. Jordan. As you can see in the attached, the US Geological Survey has delivered new satellite imagery of the Kitsap Rifle and Revolver Club dated 12 June 2010, one month later than that which I previously sent to you. I have annotated in this photograph additional filling of the existing wetland, excavation of a rectangular moorage, and either a boat or new construction in the Class 1 wetland.

I am interested to know if the Seattle District, US Army Corps of Engineers intends to take any regulatory action in this case? May I recommend that your office contact Mr. Neil Wachter, Kitsap County Senior Prosecuting Attorney at (360) 337-4979.

Sincerely,
Kevin T. Gross

Thank you Mr. Gross for your email and phone messages. I just returned to the office today from vacation and have been trying to get through the numerous emails and voice messages left for me while I was gone.

I have been in contact with KRRC and am continuing to work towards a site visit of the property to assess any filling of wetlands or other waters of the US. The information you have provided is very helpful. If possible I would like to talk with you tomorrow if you are available. I am in the office from 6:30am to 3pm...please let me know if tomorrow would work for you and what time.

Thank you,

Jess

Subject: Filling of Wetlands at Chico Creek Headwaters

Mr. Jordan, the subject of this email has become of great concern to

various
Kitsap County officials. This email is a follow-up to my voice mail message from the morning of Thursday 8 July 2010. I have also left a voice mail message with Ms. Muffy Walker, Chief of Operations Regulatory Branch, with whom I worked when I worked for the Naval Facilities Engineering Command Northwest Capital Improvement Branch. I am contacting you on the recommendation of Mr. Neil Wachter, Kitsap County Senior Prosecuting Attorney (Civil Division).

The purpose of this message is to apprise you of potential incidences of filling of Class 1 wetlands in the upper Chico Creek watershed, Water Resource Inventory Area (WRIA) 15, by the Kitsap Rifle and Revolver Club (KRRC), located at 4900 Seabeck Highway.

Attached please find three Google Earth photographs of Kitsap Rifle and Revolver Club (KRRC). A brief description of these photos is as follows:

- 1.) Google Earth satellite photo from May 15, 2010 with notations regarding various construction activities that have taken place since a comparison with a Google Earth photo of April/May 2009.
- 2.) Google Earth satellite photo from May 15, 2010 without notations.
- 3.) Google Earth satellite photo from April 30, 2009.

The May 15, 2010 imagery, compared to the April 30, 2009 imagery, shows that KRRC has apparently recently filled wetlands immediately adjacent to their active rifle and pistol shooting lines (improved areas). An issue of concern is the potential that KRRC may also have used earth fill from lead-contaminated backstop-berm material for the fill and may therefore be accelerating introduction of lead contamination into the Chico Creek watershed.

Please feel free to contact me if I may provide additional information or discussion of the satellite imagery.

Sincerely,

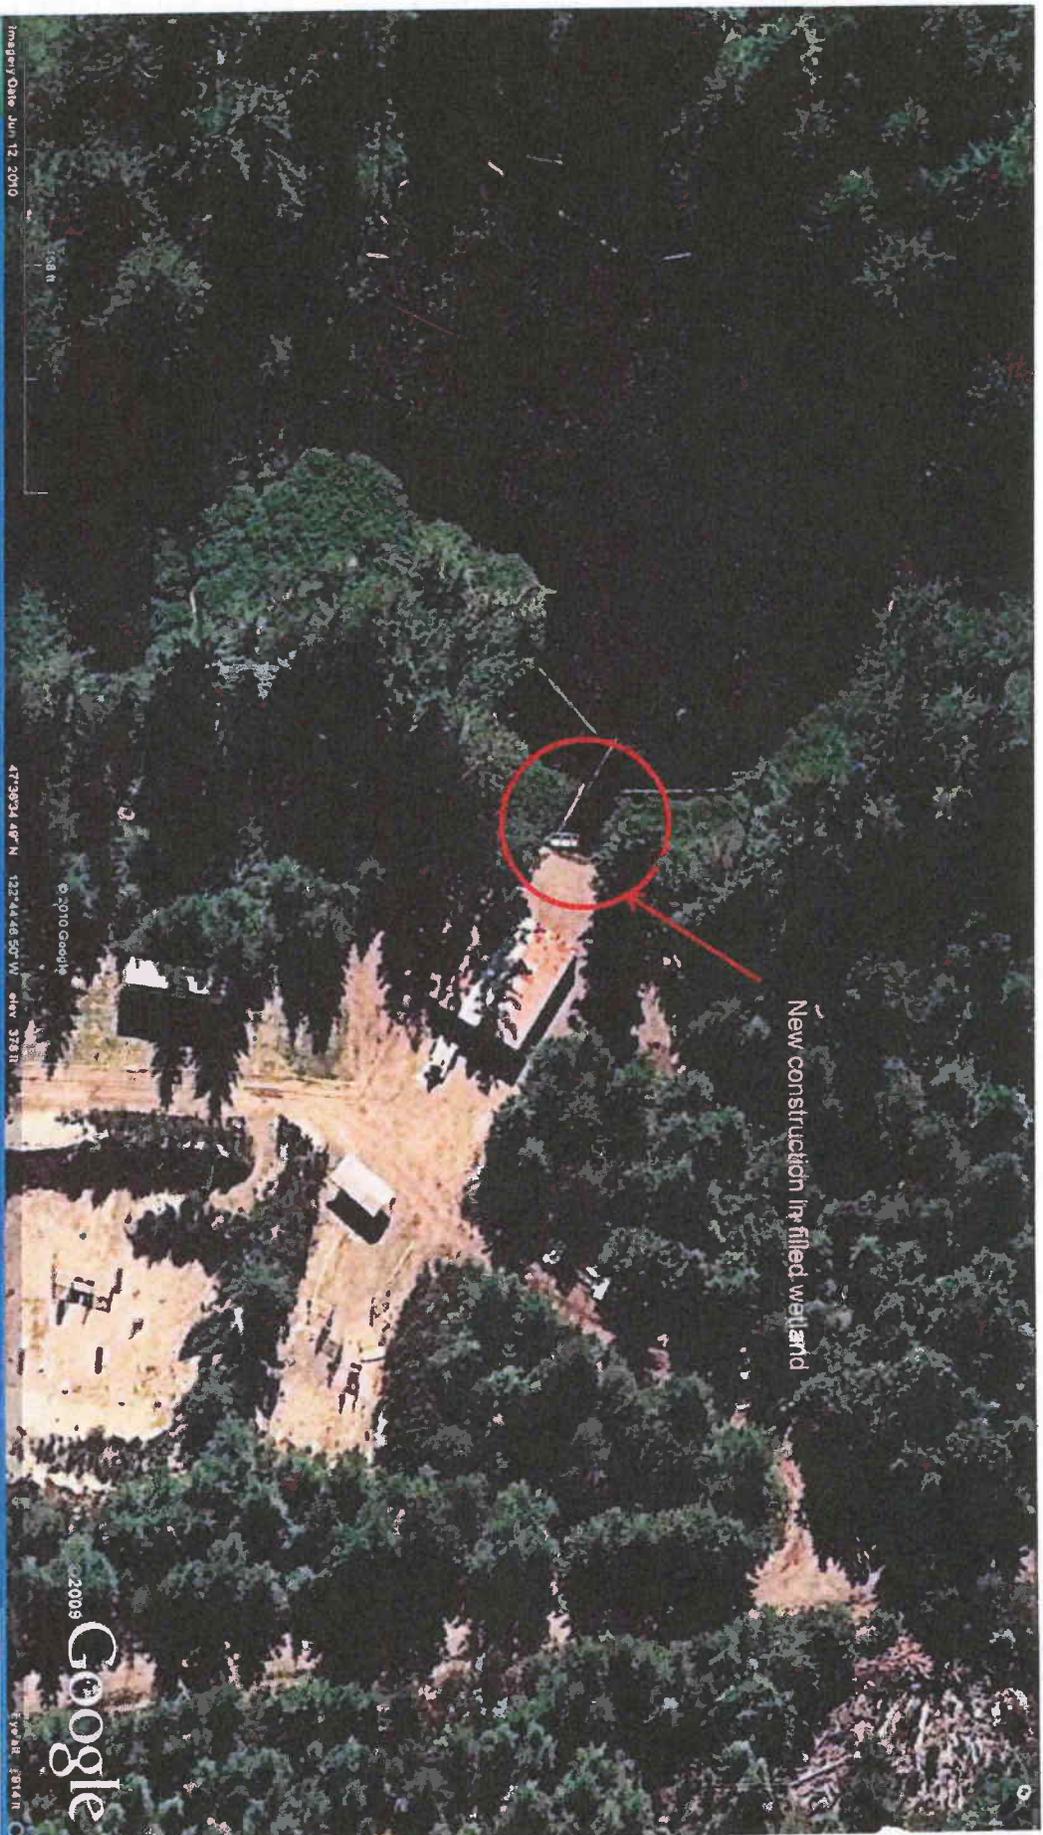

Kevin T. Gross

RE: STOP WORK ORDER # S43-10
TAX ACCOUNT # 362501-4-002-1006
SITUS ADDRESS: 4900 SEABECK HWY NW

Dear Mr. Carter:

This is to inform you that a stop work order was posted on the property listed above on July 9, 2010 for the following reason(s):

**CLEARING IN AREAS DESIGNATED AS CRITICAL AREA WETLANDS AND BUFFERS,
EXANSION OF CLUB ACTIVIES WITHOUT LAND USE APPROVAL, CLEARING AND
GRADING WITHOUT APPROVALS, PERMITS OR INSPECTIONS**

These activities must cease until the violations have been resolved and the clubs property comes into compliance with Kitsap County code. Please note, the continuance of work once a stop work has been given on the job site, constitutes direct violation of Kitsap County code and Washington State Law, including; Section 19.300.315, 17.381.040(E), and 12.10.30.

Please contact Stephen Mount at (360) 337-4605 by the close of business Thursday, July 15, 2010 to schedule a site visit and inspection of the property by our Department's staff to occur during the following week of July 19, 2010 so that we may resolve these issues.

Thank you for your cooperation in this matter.

Sincerely,

Jeffrey L. Rowe-Hornbaker, C.B.O.
Deputy Director & Certified Building Official

Subject: Filling of Wetlands at Chico Creek Headwaters
Attachments: KRRC Google Earth 30 April 2009.jpg; KRRC GOOGLE Earth Photo_15 May 2010_Filling of Wetlands.pptx; KRRC Google Earth 15 May 2010.jpg

Mr. Jordan, the subject of this email has become of great concern to various Kitsap County officials. This email is a follow-up to my voice mail message from the morning of Thursday 8 July 2010. I have also left a voice mail message with Ms. Muffy Walker, Chief of Operations Regulatory Branch, with whom I worked when I worked for the Naval Facilities Engineering Command Northwest Capital Improvement Branch. I am contacting you on the recommendation of Mr. Neil Wachter, Kitsap County Senior Prosecuting Attorney (Civil Division).

The purpose of this message is to apprise you of potential incidences of filling of Class 1 wetlands in the upper Chico Creek watershed, Water Resource Inventory Area (WRIA) 15, by the Kitsap Rifle and Revolver Club (KRRC), located at 4900 Seabeck Highway.

Attached please find three Google Earth photographs of Kitsap Rifle and Revolver Club (KRRC). A brief description of these photos is as follows:

1.) Google Earth satellite photo from May 15, 2010 with notations regarding various construction

activities that have taken place since a comparison with a Google Earth photo of April/May 2009.

2.) Google Earth satellite photo from May 15, 2010 without notations.

3.) Google Earth satellite photo from April 30, 2009.

The May 15, 2010 imagery, compared to the April 30, 2009 imagery, shows that KRRC has apparently recently filled wetlands immediately adjacent to their active rifle and pistol shooting lines (improved areas). An issue of concern is the potential that KRRC may also have used earth fill from lead-contaminated backstop-berm material for the fill and may therefore be accelerating introduction of lead contamination into the Chico Creek watershed.

Please feel free to contact me if I may provide additional information or discussion of the satellite imagery.

Sincerely,

Kevin T. Gross

HAND DELIVERY

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office
Civil Division
614 Division Street, MS-35-A
Port Orchard, WA 98366-4681

RE: Kitsap Rifle & Revolver Club

Dear Mr. Wachter:

After consulting with my client, the Kitsap Rifle and Revolver Club (KRRC), I offer you the following response. KRRC entered into the covenants set forth in the Bargain and Sale Deed in good faith. KRRC believed that Kitsap County had also entered into the agreement in good faith because it believed and understood that not only was the transfer to KRRC necessary for risk management purposes, but that KRRC serves an important function within the Kitsap Community.

Your letter is disturbing because it would appear that your offices have been misled by individuals we believe to have a hidden agenda. Starting with paragraph 2, your letter is replete with the type of allegations and presumptions that call into question the good faith upon which the KRRC previously presumed the County had based its agreement. The tone and nature of your letter makes it difficult to respond as graciously as I would have preferred. You appear to have reached conclusions about KRRC without being specific about how you reached such conclusions.

Unfounded Accusations

You state that the County has become "aware" of (a) construction activities; (b) land-clearing; and (c) filling of wetland areas believed to have occurred on the Club's premises, "all done without applying for permits as required by law." Please specify exactly what was done and what permits you believe were required. When you have specified what specific acts were done that are of concern, I will be in a better position to discuss each particular activity. As far as KRRC is aware, they complied in good faith with all laws applicable to any and all of their activities, as contemplated by the Restrictive Covenants of the Bargain and Sale Deed.

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 2

You state that the County has become "aware" of (a) increased hours of operation; (b) use of automatic firearms and (c) "dramatically" increased sound levels coming from the Club's premises, "all occurring without going through a conditional use permit review process." On what do you base your conclusion that there has been an increase in the hours of operation? As far as KRRC is aware, there has been no change in the club's historically stated hours of use.

Regarding automatic "weapons", KRRC has a history of use of all variety of firearms, including automatic and semi-automatic firearms based on the policies it has had since its inception. Military training and law enforcement with automatic firearms has long been an accepted and ongoing activity on the property. How does your current awareness of "use of automatic weapons" (especially in context of military training) create any need for a "conditional use permit review process"? As far as KRRC is aware, the use of automatic firearms on the premises is a continuing historical use and would not require a "conditional use permit process."

On what do you base your conclusion that there are "dramatically increased sound levels coming from the Club's premises"? As far as KRRC is aware, there has been no "dramatic increase" in the sound levels coming from the club.

You seem to assume that a "conditional use permit process" is required. On what do you base this assumption? What statutory or regulatory basis subjects KRRC to a conditional use permit process at this time?

Requests for Access

Your assertion that "KRRC has deferred each request indefinitely resulting in no inspections taking place" is false. Kitsap County Health District (KCHD) had inspected prior to your letter and Department of Fish and Wildlife recently inspected.

Significantly, DCD and the Suquamish Tribe have never directly requested access to inspect KRRC's premises. Some agencies have requested access for particular reasons that have been explained to KRRC and those individual agencies have been granted access. We declined any requests for a joint site visit for several reasons. First, we were not presented with any legal basis for such a request indicating the authority of any single agency's authority to represent the other agencies in such a request. In fact, we were informed by a number of agencies that they could not formally request a joint visit for the other agencies. Second, KRRC felt that it would be unwieldy for our representatives to have to deal with a large group. Our experienced experts counseled our executive committee that a joint visit would not be the best way to address the individual needs of each agency. Third, we wanted to be sure to have the proper personnel and information available. In fact, because of the logistics, a joint visit would be more disruptive to operations than a series of individual agency visits. Finally, as each agency has a specific relationship to KRRC, we do not wish to create the impression that KRRC is allowing each agency to go beyond its normal scope of allowed disclosure.

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 3

KRRC responded courteously to each request and requested information from each agency so that adequate personnel and information could be on hand to address the individual agency's needs. For some of them, we are still working out the logistics. You mention several agencies in your letter. Below, I will summarize the contacts and outcome of each agency mentioned:

1. DCD. No specific visit was requested. No specific purpose for a visit was identified. No specific personnel intended to attend were identified to KRRC.
2. Department of Fish and Wildlife. An initial request was made on March 22, 2010. KRRC made inquiry as to what was needed. Arrangements were made for the visit. On May 12, 2010, an individual agency visit was conducted. KRRC was verbally informed that there were no concerns. We are awaiting a written confirmation. As part of our inquiry, KRRC was informed that there were no documented violations activity on the range.
3. Kitsap County Health District. An initial request was made for an individual agency visit as early as June, 2009. KRRC was informed that the KCHD report would be forwarded to the Department of Ecology. After the first visit, KRRC was told to keep on doing what it was doing. A follow-up visit was conducted 6 months later, in early 2010. He met with our expert, Dan Daniels, Chair of KRRC's Environmental Stewardship Committee. **Attachments 1 and 2** are copies reports KRRC has received regarding those visits. At that time, there were no issues of concern to KCHD or the Department of Ecology.

Additional visits were requested. The most recent request by KCHD was granted, but the scheduled visit was canceled due to illness on the part of Grant Holdcroft. It is my understanding that Grant Holdcroft was going to meet with our Environmental Stewardship Committee Chair to discuss the protocol for water samples. However, KCHD has not called to reschedule. Recently, our Environmental Stewardship chair was himself unavailable due to illness and only recently has become available.

4. Department of Ecology. It is my understanding that the follow-up visits for KCHD described in paragraph 3 above were also for the Department of Ecology. As you may know, our new well was permitted by the Department of Ecology in February, 2010. (KRRC records indicate the fee was paid on February 15, 2010). Work was performed by Gresham Drilling and inspected by the Kitsap County Health District. It is my understanding that Grant Holdcroft and John Kiess were present during the drilling and provided valuable information on the care and maintenance of the well. Due to the DOE's expressed concerns on listed work party activities, KRRC has made it a policy to stay away from any areas of any possible concern pending consultation and if discovered to be necessary, permits are obtained.

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 4

5. U.S. Army Corp of Engineers. A first request was made on March 30, 2010. Clarification of the purpose of the visit was requested. This agency was told that an individual visit would be scheduled when the necessary personnel and information were prepared. The arrangements and clarifications are ongoing. Due to meetings with the other agencies and other activities that our volunteer members were conducting regarding our ongoing projects under permit (primarily the new Well), the arrangements for this visit are in the process of being completed.
6. Department of Labor and Industries. As stated above, the Department of Ecology approved the Well permit. Department of Labor and Industries visited KRRC on two occasions to inspect the new well that was constructed on the premises. As far as KRRC is aware, all necessary permits were obtained through their licensed contractor. Approval for the electrical permit should be on file with the Department of Labor and Industries.
7. Suquamish Tribe. No one from the Suquamish Tribe has requested a visit. KRRC would entertain a request for a visit by them. After an appropriate exchange of information detailing the specifics of such a visit, KRRC will be able to make a decision regarding such a visit. Historically, the Suquamish Tribe has never requested a visit in the past and KRRC is not sure how a visit by the Tribe will be helpful to the Tribe. Once KRRC is made aware of the Tribe's needs, KRRC will do its best to accommodate those needs.

As KRRC is professionally set up to provide maximum safety for all users, visitors, and the community, it is not necessary to suspend operations during an inspection. The shooting bays are set up in such a way that a site visit can occur without the need to close down the range. Since a number of agencies have already visited the range, and since KRRC has been advised by its experts that a joint visit would not be the most efficient manner to address specific needs of each agency, KRRC must respectfully decline your request for a joint visit by all of the agencies. KRRC will grant individual requests on a case by case basis. Upon clarification of the purpose of each visit, KRRC will be able to have appropriate, knowledgeable personnel on hand to aid in the visit.

Therefore, in specific response to the agency that you represent, if DCD is interested in scheduling a visit, please have DCD answer the questions on **Attachment 3** and have it returned to KRRC's executive officer, Marcus Carter. There may be follow-up questions. Once KRRC has sufficient information to provide assistance and personnel for the visit, the visit can be granted and the agency will then be notified of available dates and times.

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 5

Submission of Applications

Regarding the County's request that KRRC "submit all necessary applications for its various building and land moving operations," as far as KRRC is aware, KRRC has submitted all necessary applications to required agencies in the appropriate timeframes. As far as KRRC is aware, KRRC has done nothing that requires the submission of an application for a conditional use permit at this time. KRRC is a private landowner that is complying in good faith with all of the restrictive covenants applicable to its premises.

I appreciate your stated courtesy to KRRC in your letter. However, the "historic" uses of KRRC, i.e. those uses that were in place at the time of the land was deeded to KRRC and before, have not changed. Therefore, it is KRRC's position that there are no land use requirements that were not being followed and a conditional use permit is not required at this time.

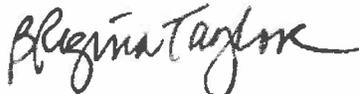

Your concluding paragraph seems to imply that the activities of KRRC are deemed a "nuisance" or "detract from the quality of life in our community." These comments are not well received because they imply after the fact that the very reasons why KRRC were granted the land are not valid; your comments are unnecessarily threatening. The gun range is recognized as a important asset to the community. KRRC has not violated any of the covenants in the Bargain and Sale Deed. If your offices are specifically accusing KRRC of a violation of any of the covenants, I would appreciate a specific reference to the specific covenant and the specific act that is alleged to have violated that covenant. I would be especially interested in specific evidence you have that may be of concern and any statutory or regulatory basis for such concern. Upon receipt of this additional information, I will be in a better position to respond and provide appropriate documentation.

Club Deserves Protection

KRRC, its thousands of members (past and present), and thousands of visitors are also part of Kitsap County. As such, they also deserve to be protected by their Prosecutor from false allegations and obvious attempts to abuse the process.

I look forward to your detailed response to this letter.

Very truly yours,

B. REGINA TAYLOR

FROM: Grant Holdcroft

RE: INITIAL INVESTIGATION SITE VISIT KITSAP RIFLE & REVOLVER CLUB; ERTS
613497

On June 24, 2009, I visited the Kitsap Rifle & Revolver Club (KRRC) to conduct an Initial Investigation inspection. I had made an appointment. I arrived on site at 10 am and met with Marcus Carter, Brad Smith, Dan ?? and two other gentlemen that were officers of the club. I explained that I had received a complaint from Ecology on lead contamination at the range and I was investigating that concern. I also explained that the EPA BMP Guidance for ranges discusses range contamination issues. I asked if they were familiar with the document and they said Yes. Dan stated that he had a copy. I asked about lead recovery programs. I was told that KRRC has been doing lead recovery for at least 16 years (1993). I asked about documentation. They said that they were starting to document as they just got title to the property but, that they could show that they have had lead recovery working parties through the club newsletter for many years.

We walked across all of the ranges. In general the areas of the property that we walked over were clean and well maintained. There is one large rifle range (200 yards), one large pistol range (50 yards), and about 10 small pistol ranges for competition shooting. All of the small ranges are backed by 8' to 10' high berms. Some trap and skeet shooting takes place on the rifle range. No shooting is allowed above the berms (except for some trap and skeet). Any rifle or pistol shooting above the berms immediately disqualifies the shooter. The impact zones of the ranges are all 95% or more sand. The pistol range is backed by a 10' to 12' high berm that has wetlands on the other side. There were no or little sign of rounds going over the berms on any of the ranges.

We spoke further after the walkthrough. I told the group that what I had seen of the KRRC looked good. I also said that the key points that I had gotten out of the EPA guidance manual was that the lead on the site must be kept within the boundaries of the ranges, a lead recovery program must be in place, and that they must document the lead recovery. Based on what I saw and learned while talking to them the first two items were taken care of appropriately. The documentation of the lead recovery needs to be active and ongoing. I told them that I believed that the complaint was without merit, but that I would make a note in my calendar to check back with them in 6 months to look at their documentation.

We discussed MTCA and the II process. We also talked about sampling. Whether or not I would be tasked by Ecology to sample, what I would sample for, what they could sample for, etc. Dan indicated that the club would be looking at sampling portions of the club for their own information. I left the site about 11 am.

Subject: RE: request to visit Kitsap Rifle and Revolver Club

No I have not received any response. I will be emailing and calling Marcus again today. In my last email I indicated he needed to set something up by the end of the month or 1st week in May. Still no response. I will let you know if I hear anything from them. I have no idea why they would want to meet with all the agencies seperately...it will only complicate things for them.

Jess

Dear Patrick,

Just a quick note to let you know that Monday, April 12th, is not logistically possible for a site visit. While we are appreciative of the concern you have expressed in wanting to minimize impact on KRRC's daily operations, we have found it much more productive to deal with individual agencies so we may focus our efforts in addressing their specific needs. I have forwarded your request for the Department of Ecology to visit our facility and will get back to you shortly with information on setting a specific meeting time.

We look forward to meeting with you.

Very truly yours,

Subject: RE: request to visit Kitsap Rifle and Revolver Club

Dear Marcus,

The information that you have requested was provided in my March 22, 2010 e-mail (below). I have no written documentation to provide for 5 or 6 below but noted that "On March 2, 2010 I visited a neighboring site located at 4792 Seabeck Highway where I viewed recent clearing along the property line which extended through an existing seasonal stream. This neighbor informed me (and others) of the intent by KR&RC to create a perimeter road around the KR&RC property."

I can only formally request a site visit for my agency, the Department of Ecology, but I have attempted informally, out of respect for KRRC's time, to help coordinate a site visit with the other agencies in the spirit of cooperation and to limit the disruption of your services to your customers. The e-mail which I sent this week on April 4th was intended to provide KRRC with the opportunity to schedule a single unified site visit with others including the Department of Ecology. The other parties who have checked their scheduling, and have determined that they can be present on April 12th include: WDFW habitat biologist, WDFW Enforcement officer, Kitsap County Planning, Kitsap County Health Department, Suquamish Tribe, and the USArmy Corps of Engineers. In that it is difficult to schedule with so many agencies at once to conduct a single site visit, I again request that you consider April 12th as a potential opportunity to have a single coordinated site visit. I have included all of the interested parties in this e-mail reply as well as in my earlier communications via e-mail.

Please call me at your earliest convenience so that we may discuss this matter.

Sincerely,

Patrick McGraner

Subject: RE: request to visit Kitsap Rifle and Revolver Club

Dear Mr. McGraner,

We are in receipt of your email dated March 22, 2010 requesting a site visit in order to resolve complaints you have received. As we believe you are aware, KRRC has demonstrated its willingness to work with any agency office we can possibly assist. We are willing to grant your request for a site visit. In order to schedule a date and prepare for your visit by having appropriate persons and information available, we have the following questions:

1. What information can we provide that will be helpful to your review?
2. How much time to you wish to devote to this site visit?
3. What specific area's of the property do you wish to visit?
4. Who will be present at the site visit?
5. Will you provide us with a copy of the complaints that initiated your investigation and current request for a site visit?
6. Will you please provide us with copies of any reports and/or communications, preliminary or otherwise, generated or received by your agency concerning this matter to date?

We look forward to working with you to assist you through this process and hope to utilize your expertise in our current and long range plans.

Very truly yours,

Subject: request to visit Kitsap Rifle and Revolver Club

Dear Members of the Board for the Kitsap Rifle and Revolver Club,

Recently the Department of Ecology has received complaints alleging that unauthorized clearing and grading activities have been taking place within the boundaries of your facility. The Department of Ecology is respectfully requesting an opportunity to meet with you or your representative(s) at the facility to determine the validity of these allegations. We would like to coordinate our visit with other local, state and federal agencies so that disruption of your daily operations can be kept at a minimum.

On March 2, 2010 I visited a neighboring site located at 4792 Seabeck Highway where I viewed recent clearing along the property line which extended through an existing seasonal stream. This neighbor informed me (and others) of the intent by KR&RC to create a perimeter road around the KR&RC property. In viewing your own web-site I have found that there is a planned Work Party scheduled for April 17-18, 2010 with one of the proposed actions being to blaze a perimeter road/brushing out property line. Given the extensive wetland areas in the vicinity of your property, it is a concern of Ecology that wetland areas might be negatively impacted from this proposed activity. I believe that it is in the best interest of all parties to discuss the implications of any action(s) that would affect waters of the state and to assist

you in any permitting that may be required. Any work within waters of the state requires authorization from state agencies.

Paul Anderson, another staff person from the Department of Ecology will likely accompany me for the site visit in part because we both need to visit the UW facility on Big Beef Creek to coordinate an educational program that we hope to do at that location.

In summary, Ecology staff requests a coordinated meeting at your facility with local, state, federal and tribal agencies to discuss concerns about alleged violations and or/potential impacts to critical areas that need to be properly permitted. Given that at least some of this activity appears to have already been started (brushing the perimeter), there appears to be an immediate need for the interagency meeting to discuss these actions.

Importance: High

Good Morning Mr. Carter,

Not having heard from you I assume that today will not work. Please call or email me with a range of dates that will work for you or other representatives from the KRRC for a site visit at the end of this month. I may also be able to meet this Wed or Thur. I will be out of the office the week of April the 19th.

Again please note, the proposed road or other work on this property may result in a discharge of dredged or fill material (e.g., fill, excavation, or mechanized land clearing) into wetlands or other waters of the U.S. Under the Corps' Regulatory Program most proposed work in waters of the U.S. requires that you submit a permit application and receive a valid DA permit prior to performing the work.

Sincerely,

Subject: RE: Request to visit Kitsap Rifle and Revolver Club

Importance: High

Thank you very much for the reply Mr. Carter. I appreciate your cooperation!
Please find below the answers to your questions.

1.& 2. Having not been on site I am unable to say what exact stream or wetland the complaint concerns other than the complaint indicated that there may have been work done on wetlands and streams onsite. This is the assessment we need to make by viewing the site.

3. Recognizing the inconvenience of having to close the range during the site visit, I would like to minimize the closure time to the greatest extent possible. It appears that the range is open at 11am M-F. If we were able to meet with you early we could be finished up by 12 noon. Please provide a range of times in the morning that would work for you. I am thinking I could be out there by 8:30 and would be done by 12 noon. If

4. Information on where have you been doing work in the last number of years? What have you done in these areas? Where specifically do you plan to do the future work along the perimeter of KRRC property that you describe on your website, and what specifically are you proposing to do?

5. The recently disturbed areas (last 2-4 years) and the perimeter of the property.

6. Myself and another U.S. Army Corps of Engineers employee. I know that the County, WDFW, Suquamish Tribe, and Ecology are also seeking permission for a site visit. I am only asking permission for the U.S. Army Corps of Engineers. I can not ask permission for the other agencies. That said I would recommend that a joint visit be done so that you can get all of the determinations and recommendations from all the agencies at one time so that you are not asked to provide information or do things that we may not all agree on. This will aid the KRRC in resolving any potential issues (or there may be no issue at all) as you can hear from agencies and get one message versus 3 to 4. Obviously that is your call to make.

7. I do not have a copy of any complaint. I was notified of the possible work anonymously.

8. We do not have any reports other than maps and aerial images available to the general public (Soil maps, National Wetland Inventory maps, Google aerial images). I can provide copies of these maps to you at the site visit. Or if I can assist you in finding these resources online I would be happy to do so.

Please call me today...I will be in meetings until 3:15. I will be working at my desk until 7:00pm or later. I will not be in the office this Thursday (8th) and Friday (9th). I am able to visit the site on Monday the 12th or Tuesday the 13th. If Monday will work I will need you to let me know it will work for you today before 7:00pm. Again The 12th is when all agencies can be onsite and will mean less time for the KRRC needing to shut down the range or have multiple meetings with multiple agencies. Thank you again for your cooperation.

RE: NWS-2010-449, Kitsap Rifle & Revolver Club

Dear Mr. Jordan:

We are in receipt of your letter dated March 30, 2010 requesting a site visit in order to resolve a complaint you received. KRRC is willing to grant your request for a site visit. Concerning the nature of whom we believe to be the complainant(s), upon advice of counsel and in order to schedule a date and prepare for your visit by having appropriate persons and information available, we have the following questions:

1. What specific stream or wetland does the complaint concern?
2. What other inventoried wetlands, creeks, or seasonal streams have you identified as potentially problematic?
3. How much time do you wish to devote to this site visit?
4. What other information will be helpful to your review?
5. What specific areas of the property do you wish to visit?
6. Who will be present at the meeting?
7. Will you provide us with a copy of the complaint(s) that initiated your request for a site visit?
8. Will you please provide us with any reports, preliminary of otherwise, generated by you and your agency concerning this matter to date?

We look forward to working with you.

Very truly yours,

That said I would still like to encourage the USACOE to coordinate with other agencies and the Tribe regarding site visits. I do not think that the policy you have described below necessarily precludes this.

I am attempting to make contact again to see about the 12th. I was previously unaware but have been informed the Corps policy is that when we set up meetings for us to enter the site we cannot arrange for access with the landowners for other agencies, the other agency must make their own arrangements. I have made several calls and have received no response or have reached a number that has been disconnected. Once I receive my letter back from my supervisor I will email it out and cc the agencies involved thus far. In the meantime I will continue to try to make contact.

Thanks,

Jess

Subject: RE: Rifle Range Site Visit- Cancelled!

Both Jess Jordan and Steve Mount contacted me independently via voice-mails today wondering if I have received word from KR&RC regarding the request to have a joint meeting on the site. I have not received a reply or response of any kind. In that their scheduled work-party is coming up mid-month in April, it would be good if we could get an audience with them and visit the site. Jess was wondering about my availability for the week of April 12th. My calendar is full all that week except for Monday April 12th. I just spoke to Steve Mount and he said that he could make it on the 12th. I told Steve that I would send this e-mail to determine how the rest of your schedules look for that date.

What remains to be resolved is for the range to communicate with all of us and to agree to a date -- still, Steve thought we should at least test the waters among us for Monday April 12.

Patrick McGraner/Ecology

Everyone,

I am sorry to say the meeting is cancelled. I finally received a call back from Marcus today (Friday) who informed me that Monday would not work for him. He explained that for one, the range actually opens to members at 7am - 10pm for seven days a week to members. He also would like to be able to inform members at least a week in advance of any disruption of access to the range. In addition, he would like to bring some information regarding the visit to the board. Once he has all the information, he will give us a day that will work best for them, likely a Tues, Wednesday, or Thursday. Please email the following information to info@gunsafety.org which is for board members.

-Who will attend, name, phone number, email address, agency -Purpose of visit -Have any environmental impacts been observed as a result of the ranges activities -Are there reports documenting violations or illegal activity

He assured me once we sent this information that they would work with us on setting up a site visit.

Bremerton, Washington 98312

Reference: NWS-2010-449
Kitsap Rifle & Revolver Club

Dear Executive Committee for the Kitsap Rifle and Revolver Club:

We recently received a complaint that you placed fill in wetlands and re-routed a stream on the Kitsap Rifle and Revolver Club property located at 4900 Seabeck Highway Northwest near Bremerton, Washington. Under Section 404 of the Clean Water Act, a Department of the Army (DA) permit issued by the U.S. Army Corps of Engineers (Corps) is normally required for the discharge of dredged or fill material (e.g., fill, excavation, or mechanized land clearing) into waters of the U.S., including wetlands and navigable waters of the U.S. Placing fill in wetlands or other waters of the U.S. without a valid DA permit or permit exemption would be a violation of Federal law. For more information, please see the enclosure entitled *Clean Water Act and Rivers and Harbors Act Extracts and Definitions* which describes laws that may apply to the work.

On March 2, 2010, I viewed a portion of the Kitsap Rifle and Revolver Club property from an adjacent property. I observed that you recently cleared and graded along the Kitsap Rifle and Revolver Club property line and may have done this work through a stream that runs from the Kitsap Rifle and Revolver Club property onto an adjacent landowner's property. I also understand you plan to install a road around the perimeter of the Kitsap Rifle and Revolver Club property. The Kitsap Rifle and Revolver Club website indicates a work party is scheduled for April 17-18, 2010, with one of the proposed actions being to "blaze a perimeter road/brushing out property line". Based on available information and after viewing the site from the adjacent property it appears there are wetland and stream areas on the Kitsap Rifle and Revolver Club property.

Please note, the proposed road or other work on this property may result in a discharge of dredged or fill material (e.g., fill, excavation, or mechanized land clearing) into wetlands or other waters of the U.S. Under the Corps' Regulatory Program most proposed work in waters of the U.S. requires that you submit a permit application and receive a valid DA permit prior to performing the work. For additional information on the Corps' Regulatory Program please visit

JORDAN/kal
30 MAR 2010
3/30/10

- 2 -

our website at <http://www.nws.usace.army.mil/> and select Regulatory / Permits from the main menu. For assistance in determining other permit requirements, we recommend you contact the Washington State Office of Regulatory Assistance via their website at <http://www.ora.wa.gov/>.

It appears you may have recently performed work in a water of the U.S. without a valid DA permit. I request an opportunity to inspect this work and to discuss your proposed projects with you or a club representative(s) at a time convenient for you during week of April 12th. Upon receiving this letter please contact me to schedule a site visit.

Your cooperation will be beneficial in resolving this matter. If you have any questions and to schedule a site visit, please contact me at (206) 439-4536 or via email at Dale.J.Jordan@usace.army.mil.

Sincerely,

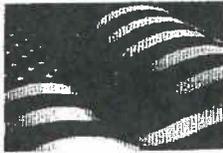

Jess Jordan, Project Manager

Club Work Party Projects

Listed here are specific projects and needs we have at the range to improve and maintain our facilities and Club heritage. Many of these can be done at anytime whether there is a work party or not.

Next Work Party - April 17, 18 2010 - (Tomorrow if you can make it...there is something to do everyday!)

**Check back often as this list will be updated frequently!
Last Update: 03/10/2010**

- Bring in well drilling rig
- Layout ditch work for electrical upgrade and water
- Stake and layout area for new restrooms
- Complete South fence line from Seabeck Hwy to Camp Wesley Harris
- Clean-up of all shooting bays
- General Clean-up
- We need computer capable members to scan old KRRC related photo's at high resolution and save to disc.
- Finish marking and brushing out property line.
- Blaze perimeter road
- Layout and leveling of Action shooting conex boxes
- Clean-up and rebuild the 25 yard line
- Sani-Can Repair/Maintenance
- Organize USABLE "raw materials" and discard trash
- Repair discipline props
- Replace 'danger' signage and add "no trespassing"
- Lead/copper/brass reclamation and recycling
- Move remaining range items from right side of rifle line
- Place remaining gate for bay access
- Skirt office
- Clean roofs and gutters throughout the range.
- Landscaping: General clean-up
- Berm grooming
- Repair drainage from parking lot
- Clean up Seabeck Hwy from Holly Rd. to Calamity Ln.
- Work on Hunter Ed/Archery area
- Target Stands: There are several designs we use for various events. Plans for our primary stands can be found

here in a couple of different formats for a home project.
Each completed stand, material and labor = one
participation credit. PDF Page 1; PDF Page 2; MSWord

- Etcetera

Material Needs

Listed here are material needs we have at the range to finish specific projects and to continue the daily operation our programs and facilities. When you donate materials such as those listed, make sure you get your participation credits card punched for the value to the range.

- Light Poles - 25 to 40 foot would be GREAT! We have 20+ new lights we need to get up in the air!
- Fencing material
- 5 gallon buckets
- Perforated Pipe
- Filter Fabric
- Gravel
- Crushed Asphalt
- Paint and stain! - EXTERIOR ONLY, various colors...bright colors as well as the Club blue and yellow.
- Oak, Walnut, Cherry wood, and acrylics for plaque/awards construction. Scrap, old plaques etc.
- 1 x 2's for target stands.
- \$\$\$\$ for the above and beyond!

Equipment Needed

- Excavators
- Bulldozer
- brush hogs
- Chipper (the larger the better)
- Weedwackers
- Chainsaws
- Rakes
- Shovels
- A large mobile water tank to feed a pressure washer.

Subject: request to visit Kitsap Rifle and Revolver Club

Dear Members of the Board for the Kitsap Rifle and Revolver Club,

Recently the Department of Ecology has received complaints alleging that unauthorized clearing and grading activities have been taking place within the boundaries of your facility. The Department of Ecology is respectfully requesting an opportunity to meet with you or your representative(s) at the facility to determine the validity of these allegations. We would like to coordinate our visit with other local, state and federal agencies so that disruption of your daily operations can be kept at a minimum.

On March 2, 2010 I visited a neighboring site located at 4792 Seabeck Highway where I viewed recent clearing along the property line which extended through an existing seasonal stream. This neighbor informed me (and others) of the intent by KR&RC to create a perimeter road around the KR&RC property. In viewing your own web-site I have found that there is a planned Work Party scheduled for April 17-18, 2010 with one of the proposed actions being to blaze a perimeter road/brushing out property line. Given the extensive wetland areas in the vicinity of your property, it is a concern of Ecology that wetland areas might be negatively impacted from this proposed activity. I believe that it is in the best interest of all parties to discuss the implications of any action(s) that would affect waters of the state and to assist you in any permitting that may be required. Any work within waters of the state requires authorization from state agencies.

Paul Anderson, another staff person from the Department of Ecology will likely accompany me for the site visit in part because we both need to visit the UW facility on Big Beef Creek to coordinate an educational program that we hope to do at that location.

In summary, Ecology staff requests a coordinated meeting at your facility with local, state, federal and tribal agencies to discuss concerns about alleged violations and or/potential impacts to critical areas that need to be properly permitted. Given that at least some of this activity appears to have already been started (brushing the perimeter), there appears to be an immediate need for the interagency meeting to discuss these actions.

It does and make sure you keep the KRRC issues on the same page as it is now. In other words, you can get at it from 2 different places. Thanks for seeing to this.

Subject: Public Records Request

All - Attached is a sample copy of a Pubic Records Request which our office received this week, as well as a draft 5-day letter that will be going out in response. To date I have received 30 identical record requests, including one near identical request from the Kitsap Sun. This does not include 4 other Kitsap Rifle and Revolver Club PDRs that have been received in the past few days. Since all the members of the gun club have been encouraged to submit PDRs, I anticipate even more request.

Due to the broad scope of these requests, almost any office or department could potentially have records related to these requests. As such, PLEASE review your files and forward me copies of any and all records you have that deal with the Kitsap Rifle and Revolver Club and/or any other gun club.

I will work directly with the IS Department to coordinate the collection of email records, so please direct you attention primarily toward any other types of records (reports, studies, presentations, memos, notes, etc.).

Thanks!...and Have a Nice Day! - Don

Public records officer: Kitsap County Parks and Recreation

Dear Mr. Dunwiddie,

Re: Request for Disclosure of Public Information and Records
(Revised Code of Washington 42.56.001 et seq.)

Public records officer: Kitsap County Department of Community Development

Pursuant to RCW 42.56.001 et seq., please produce all records, including but not limited to: documents, records of contacts, correspondence, electronic, printed, handwritten, typed, filmed or recorded material, or other representations of any kind, or anything pertaining, describing, referring or relating, directly or indirectly in whole or in part, to the subject matter referenced below.

Any references to "Kitsap Rifle & Revolver Club", "Kitsap Gun Club", "Gun Club", "KRRC", "K.R.R.C." (herein after "KRRC") or other variations and abbreviations of same. Any references to the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312. And more specifically:

Any references for safety complaints for KRRC and/or the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312

Any references for safety complaints for other ranges & like facilities (e.g. paintball, archery,

etc.)

Any references for other complaints for KRRC (non-safety issue)

Any references for other complaints for other ranges (non-safety issues)

Search every record for permits required of other ranges

Search every record for requests for safety inspections of KRRC

Search every record for requests for safety inspections of other ranges and like facilities

Search every record for every facility that the public goes that must present a "safety plan"?

Every photograph of all shooting ranges on file

Every report on KRRC, & supporting notes

List of neighbors/neighborhoods who claim they are endangered

Every photo of KRRC, aerial or otherwise

Health department reports & records

Wildlife reports and records for said property

Wetlands information (if any) on KRRC land

Correspondence with other agencies about KRRC

In the event that you determine some portion of the requested documents to be exempt from release, please notify me of such action and identify any exemption(s) that is invoked. I request the release of any portion of the document or pieces of information that is not exempt. I further request that all documents stored in electronic form be provided electronically if possible. If documents are temporarily unavailable, I request explanation of same and release when they become available.

Sincerely,

James and Patti Wamsher

RE: Public Records Request

Dear Mr. & Mrs. Wamsher,

Thank you for the three public records requests you submitted to the Kitsap County Prosecutor's Office, Kitsap County Sheriff's Office and the Kitsap County Parks and the Recreation Department dated September 23, 2010 and received on September 27, 2010.

You have requested:

"all records, including but not limited to: documents, records of contacts, correspondence, electronic, printed, handwritten, typed, filmed or recorded material, or other representations of any kind, or anything pertaining, describing, referring or relating, directly or indirectly in whole or in part, to the subject matter referenced below.

Any references to "Kitsap Rifle & Revolver Club", "Kitsap Gun Club", "Gun Club", "KRRC", "K.R.R.C." (Herein after "KRRC") or other variations and abbreviations of same. Any references to the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312. And more specifically:

Any references for safety complaints for KRRC and/or the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312

Any references for safety complaints for other ranges & like facilities (e.g. paintball, archery, etc.)

Any references for other complaints for KRRC (non-safety issue)

Any references for other complaints for other ranges (non-safety issues)

Search every record for permits required of other ranges

Search every record for requests for safety inspections of KRRC

Search every record for requests for safety inspections of other ranges and like facilities

Search every record for every facility that the public goes that must present a "safety plan"?

Every photograph of all shooting ranges on file

Every report on KRRC, & supporting notes

List of neighbors/neighborhoods who claim they are endangered

Every photo of KRRC, aerial or otherwise

Health department reports & records

Wildlife reports and records for said property

Wetlands information (if any) on KRRC land

Correspondence with other agencies about KRRC"

This records request is written very broadly. In order to provide you with the specific records you are requesting and to help our office clarify the scope of this request, could you please provide our office with:

- A specific timeframe for these records?
- Can you clarify what you mean by "Search every record for permits required of other ranges"? Specifically, to what kinds or types of ranges are you referring?
- Can you clarify what you mean by "Search every record for every facility that the public goes that must present a "safety plan"? Does this mean you are requesting records pertaining to the safety instructions/plans for all shooting ranges within the county? If not, to which specific facilities do you refer?

Any clarification you can provide that will help us define the scope of your request would be appreciated.

The Kitsap County Health District is an independent agency. As such, requests for "Health Department reports and records" should be directed directly to that agency. It is also suggested that you directly contact the Washington State Department of Natural Resources and the Washington State Department Fish and Wildlife for records regarding "Wildlife reports and records for said property" and "Wetlands information (if any) on KRRC land". The County will provide records obtained from these agencies, some of which result from records requests answered by the agencies (e.g. DNR). Can you identify other agencies for which you believe the County may possess records?

All records responsive to this request will be reviewed and prepared for release. However, due to the broad scope of your request, our office does not anticipate completing its response any sooner than December 31, 2010. As records become available for release we intend to provide them in installments. We would like your input on whether we should post the records on the county website as they become available.

If for any reason we must withhold or redact information from a document, you will be notified as to which document this applies, and the reason why.

If you have additional questions or concerns please feel free to contact me at any time.

Sincerely,

Don Burger, Records Coordinator
dburger@co.kitsap.wa.us

[Civil Enforcement Action Re: Kitsap Rifle and Revolver Club](#)

Kitsap County et al vs. Kitsap County Rifle and Revolver Club et al

Pierce County Superior Court Cause No. 10-2-12913-3

What is the action?

Kitsap County has filed a civil enforcement action in Pierce County Superior Court to enforce the Kitsap County Code and to seek a declaratory judgment that the Kitsap Rifle and Revolver Club has exceeded its legal non-conforming ("grandfathered") land use status. For several decades and up through the 1990's, the Club's facilities consisted of a single pistol range and a single rifle range at 4900 Seabeck Highway SW in central Kitsap County. The Club has dramatically changed its facilities and its uses of the range, but the Club has refused to apply for land use, building or site development permits or to undergo any public review process.

What's changed at the gun range?

Over the last decade, the Club has transformed its shooting range:

1. Expanding from two to at least ten shooting areas by adding several "tactical" shooting areas including 360-degree and 270-degree shooting bays, without obtaining an independent professional range safety analysis.
2. Allowing for-profit training businesses to operate on the premises contrary to applicable zoning.
3. Hosting "practical shooting" competitions in which hundreds of rounds of ammunition are fired each day for several weekends each year.
4. Allowing and encouraging use of automatic weapons and high-caliber weapons at the range, such as the .50 caliber Barrett BMG which is capable of firing a bullet over four miles.
5. Allowing users of the range to shoot at targets rigged with materials which explode upon impact.
6. Clearing, grading and filling protected stream and/or wetland buffer areas without first submitting to review under the County's Critical Areas Ordinance. The Club's property includes a stream and wetlands in the headwaters of Chico Creek.
7. Converting the range from a daylight-hours only operation into a lighted facility that can be used for shooting anytime from 7 a.m. to 10 p.m. seven days a week year round.

To its neighbors, the Club used to be a minor source of background noise that was audible from the outdoors or with a house's windows open. Today, the Club is a frequent source of loud, prolonged, and disruptive gunfire that can be heard by hundreds of Kitsap County residents even with their windows closed.

Why now?

Residents downrange of the Club have filed dozens of complaints to Kitsap County regarding the sound levels and intensity of gunfire and shooting. It has come to our attention that shooting at the Club may pose a danger to the public in "surface danger zones" downrange of the Club, and a professional range expert has opined that shooting at the Club must stop until it undergoes a complete and independent professional range safety review and can be proven or made safe. To delay action on this evidence could be a dereliction of our duties to the public.

This lawsuit is about whether and how the Club can operate its outdoor shooting range safely and legally. This lawsuit demands a public process to evaluate what uses can be permitted at the Club's current property. Like any lawsuit, the allegations of this action must be proven in a court of law.

MEMORANDUM FOR RECORD

Date: 16 August 2010

RE: NWS-2010-449

After the last email sent to KKRC on 12 April 2010 I have not received any response. I have called multiple times and have not been able to leave a message on any machine and have not been able to talk with any representatives. I have been in contact with Linda Storm of EPA to see what interest EPA may have in lending support from a civil and criminal authority standpoint to enable a site visit to occur.

I have had several emails from concerned citizens which have greatly informed the alleged work that was done on KKRC property within wetlands. I have also been continuing to coordinate with Neil Wachter from Kitsap County and other state, Federal and Tribal agencies. All indicated they have likewise not received any permission to enter the property to perform a site visit.

I am drafting a letter with the Colonel's signature block and language indicating EPA's interest in the case and greater enforcement authorities. The draft letter will need to be reviewed by my senior scientist and section chief.

To: Jordan, Jess NWS
Subject: New Construction and Filling of Wetlands
Attachments: KRRC Construction in Wetland of 12 June 2010.pptx

Good morning Mr. Jordan. As you can see in the attached, the US Geological Survey has delivered new satellite imagery of the Kitsap Rifle and Revolver Club dated 12 June 2010, one month later than that which I previously sent to you. I have annotated in this photograph additional filling of the existing wetland, excavation of a rectangular moorage, and either a boat or new construction in the Class 1 wetland.

I am interested to know if the Seattle District, US Army Corps of Engineers intends to take any regulatory action in this case? May I recommend that your office contact Mr. Neil Wachter, Kitsap County Senior Prosecuting Attorney at (360) 337-4979.

Thank you Mr. Gross for your email and phone messages. I just returned to the office today from vacation and have been trying to get through the numerous emails and voice messages left for me while I was gone.

I have been in contact with KRRC and am continuing to work towards a site visit of the property to assess any filling of wetlands or other waters of the US. The information you have provided is very helpful. If possible I would like to talk with you tomorrow if you are available. I am in the office from 6:30am to 3pm...please let me know if tomorrow would work for you and what time.

Thank you,

Jess

To: Jordan, Jess NWS
Cc: Terry Allison; Neil Wachter
Subject: Filling of Wetlands at Chico Creek Headwaters

Mr. Jordan, the subject of this email has become of great concern to

various
Kitsap County officials. This email is a follow-up to my voice mail message from the morning of Thursday 8 July 2010. I have also left a voice mail message with Ms. Muffy Walker, Chief of Operations Regulatory Branch, with whom I worked when I worked for the Naval Facilities Engineering Command Northwest Capital Improvement Branch. I am contacting you on the recommendation of Mr. Neil Wachter, Kitsap County Senior Prosecuting Attorney (Civil Division).

The purpose of this message is to apprise you of potential incidences of filling of Class 1 wetlands in the upper Chico Creek watershed, Water Resource Inventory Area (WRIA) 15, by the Kitsap Rifle and Revolver Club (KRRC), located at 4900 Seabeck Highway.

Attached please find three Google Earth photographs of Kitsap Rifle and Revolver Club (KRRC). A brief description of these photos is as follows:

- 1.) Google Earth satellite photo from May 15, 2010 with notations regarding various construction activities that have taken place since a comparison with a Google Earth photo of April/May 2009.
- 2.) Google Earth satellite photo from May 15, 2010 without notations.
- 3.) Google Earth satellite photo from April 30, 2009.

The May 15, 2010 imagery, compared to the April 30, 2009 imagery, shows that KRRC has apparently recently filled wetlands immediately adjacent to their active rifle and pistol shooting lines (improved areas). An issue of concern is the potential that KRRC may also have used earth fill from lead-contaminated backstop-berm material for the fill and may therefore be accelerating introduction of lead contamination into the Chico Creek watershed.

Please feel free to contact me if I may provide additional information or discussion of the satellite imagery.

Sincerely,

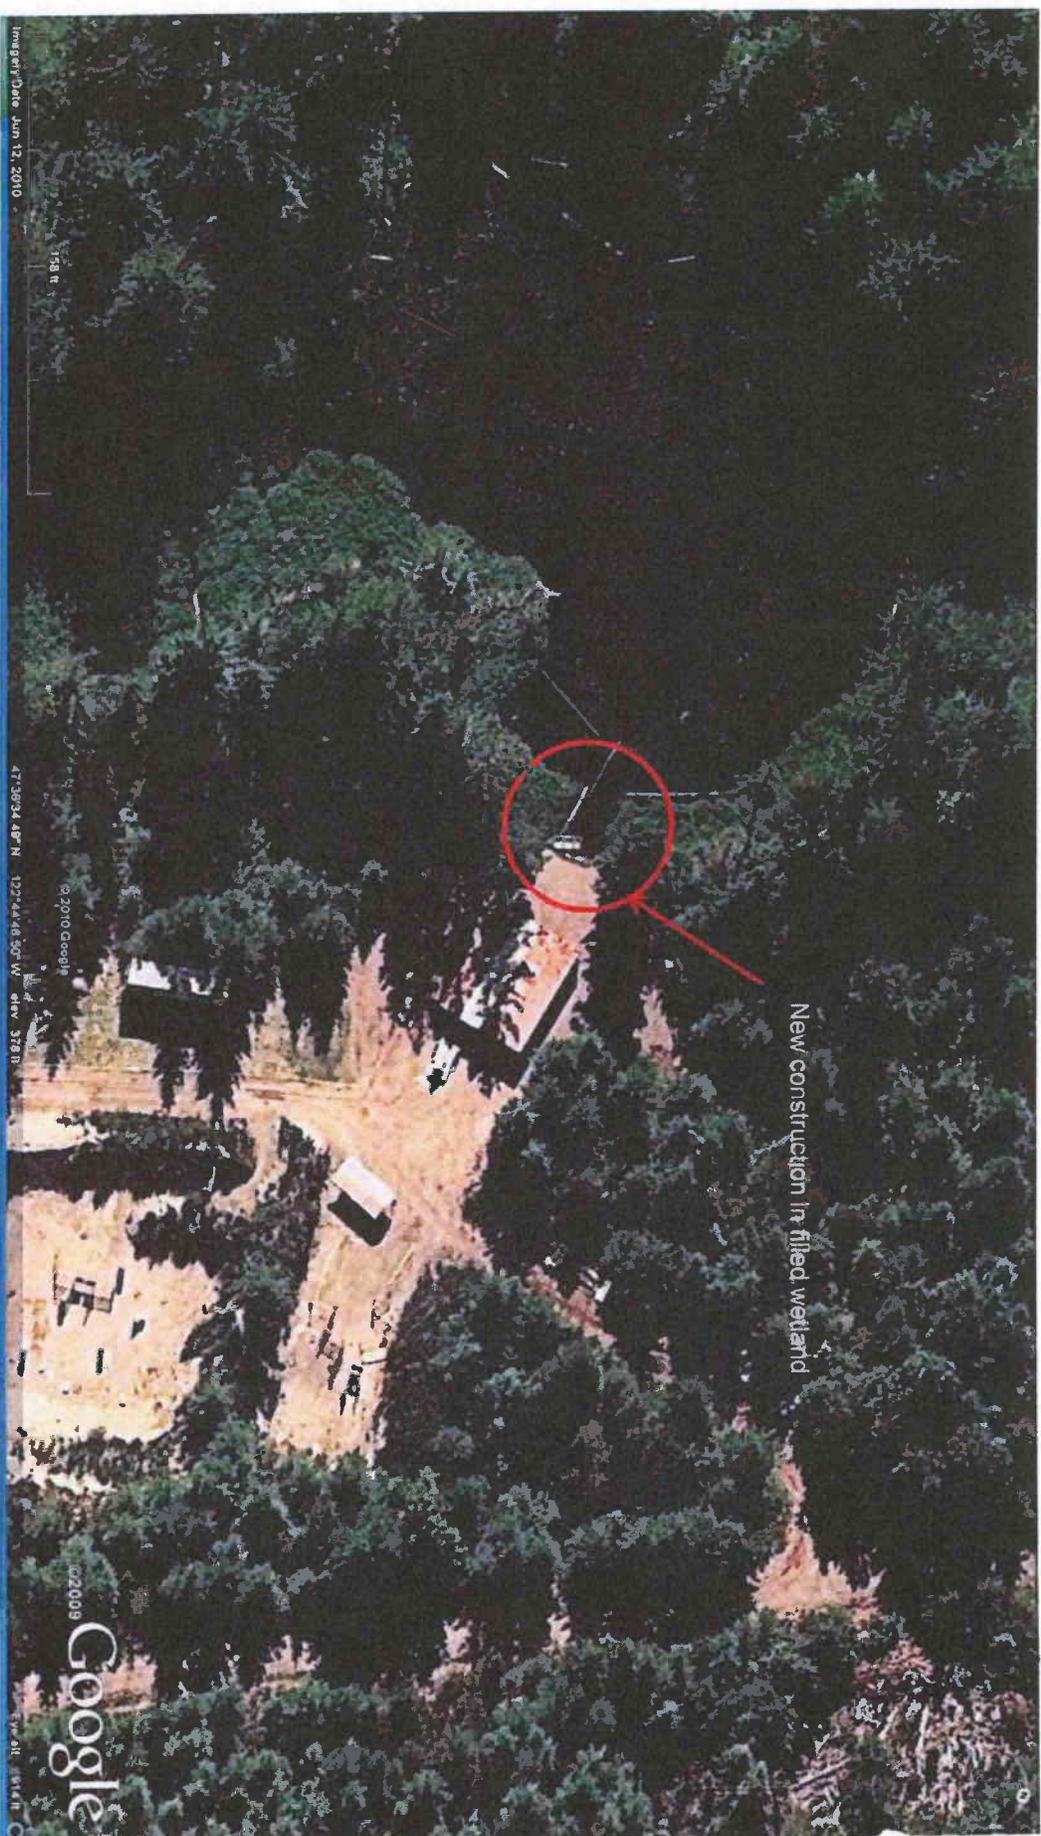

Kevin T. Gross

RE: STOP WORK ORDER # S43-10
TAX ACCOUNT # 362501-4-002-1006
SITUS ADDRESS: 4900 SEABECK HWY NW

Dear Mr. Carter:

This is to inform you that a stop work order was posted on the property listed above on July 9, 2010 for the following reason(s):

**CLEARING IN AREAS DESIGNATED AS CRITICAL AREA WETLANDS AND BUFFERS,
EXANSION OF CLUB ACTIVIES WITHOUT LAND USE APPROVAL, CLEARING AND
GRADING WITHOUT APPROVALS, PERMITS OR INSPECTIONS**

These activities must cease until the violations have been resolved and the clubs property comes into compliance with Kitsap County code. Please note, the continuance of work once a stop work has been given on the job site, constitutes direct violation of Kitsap County code and Washington State Law, including; Section 19.300.315, 17.381.040(E), and 12.10.30.

Please contact Stephen Mount at (360) 337-4605 by the close of business **Thursday, July 15, 2010** to schedule a site visit and inspection of the property by our Department's staff to occur during the following week of July 19, 2010 so that we may resolve these issues.

Thank you for your cooperation in this matter.

Sincerely,

Jeffrey L. Rowe-Hornbaker, C.B.O.

Subject: Filling of Wetlands at Chico Creek Headwaters
Attachments: KRRC Google Earth 30 April 2009.jpg; KRRC GOOGLE Earth Photo_15 May 2010_Filling of Wetlands.pptx; KRRC Google Earth 15 May 2010.jpg

Mr. Jordan, the subject of this email has become of great concern to various Kitsap County officials. This email is a follow-up to my voice mail message from the morning of Thursday 8 July 2010. I have also left a voice mail message with Ms. Muffy Walker, Chief of Operations Regulatory Branch, with whom I worked when I worked for the Naval Facilities Engineering Command Northwest Capital Improvement Branch. I am contacting you on the recommendation of Mr. Neil Wachter, Kitsap County Senior Prosecuting Attorney (Civil Division).

The purpose of this message is to advise you of potential incidences of filling of Class 1 wetlands in the upper Chico Creek watershed, Water Resource Inventory Area (WRIA) 15, by the Kitsap Rifle and Revolver Club (KRRC), located at 4900 Seabeck Highway.

Attached please find three Google Earth photographs of Kitsap Rifle and Revolver Club (KRRC). A brief description of these photos is as follows:

1.) Google Earth satellite photo from May 15, 2010 with notations regarding various construction

activities that have taken place since a comparison with a Google Earth photo of April/May 2009.

2.) Google Earth satellite photo from May 15, 2010 without notations.

3.) Google Earth satellite photo from April 30, 2009.

The May 15, 2010 imagery, compared to the April 30, 2009 imagery, shows that KRRC has apparently recently filled wetlands immediately adjacent to their active rifle and pistol shooting lines (improved areas). An issue of concern is the potential that KRRC may also have used earth fill from lead-contaminated backstop-berm material for the fill and may therefore be accelerating introduction of lead contamination into the Chico Creek watershed.

Please feel free to contact me if I may provide additional information or discussion of the satellite imagery.

Sincerely,

Kevin T. Gross

HAND DELIVERY

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office
Civil Division
614 Division Street, MS-35-A
Port Orchard, WA 98366-4681

RE: Kitsap Rifle & Revolver Club

Dear Mr. Wachter:

After consulting with my client, the Kitsap Rifle and Revolver Club (KRRC), I offer you the following response. KRRC entered into the covenants set forth in the Bargain and Sale Deed in good faith. KRRC believed that Kitsap County had also entered into the agreement in good faith because it believed and understood that not only was the transfer to KRRC necessary for risk management purposes, but that KRRC serves an important function within the Kitsap Community.

Your letter is disturbing because it would appear that your offices have been misled by individuals we believe to have a hidden agenda. Starting with paragraph 2, your letter is replete with the type of allegations and presumptions that call into question the good faith upon which the KRRC previously presumed the County had based its agreement. The tone and nature of your letter makes it difficult to respond as graciously as I would have preferred. You appear to have reached conclusions about KRRC without being specific about how you reached such conclusions.

Unfounded Accusations

You state that the County has become "aware" of (a) construction activities; (b) land-clearing; and (c) filling of wetland areas believed to have occurred on the Club's premises, "all done without applying for permits as required by law." Please specify exactly what was done and what permits you believe were required. When you have specified what specific acts were done that are of concern, I will be in a better position to discuss each particular activity. As far as KRRC is aware, they complied in good faith with all laws applicable to any and all of their activities, as contemplated by the Restrictive Covenants of the Bargain and Sale Deed.

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 2

You state that the County has become "aware" of (a) increased hours of operation; (b) use of automatic firearms and (c) "dramatically" increased sound levels coming from the Club's premises, "all occurring without going through a conditional use permit review process." On what do you base your conclusion that there has been an increase in the hours of operation? As far as KRRC is aware, there has been no change in the club's historically stated hours of use.

Regarding automatic "weapons", KRRC has a history of use of all variety of firearms, including automatic and semi-automatic firearms based on the policies it has had since its inception. Military training and law enforcement with automatic firearms has long been an accepted and ongoing activity on the property. How does your current awareness of "use of automatic weapons" (especially in context of military training) create any need for a "conditional use permit review process"? As far as KRRC is aware, the use of automatic firearms on the premises is a continuing historical use and would not require a "conditional use permit process."

On what do you base your conclusion that there are "dramatically increased sound levels coming from the Club's premises"? As far as KRRC is aware, there has been no "dramatic increase" in the sound levels coming from the club.

You seem to assume that a "conditional use permit process" is required. On what do you base this assumption? What statutory or regulatory basis subjects KRRC to a conditional use permit process at this time?

Requests for Access

Your assertion that "KRRC has deferred each request indefinitely resulting in no inspections taking place" is false. Kitsap County Health District (KCHD) had inspected prior to your letter and Department of Fish and Wildlife recently inspected.

Significantly, DCD and the Suquamish Tribe have never directly requested access to inspect KRRC's premises. Some agencies have requested access for particular reasons that have been explained to KRRC and those individual agencies have been granted access. We declined any requests for a joint site visit for several reasons. First, we were not presented with any legal basis for such a request indicating the authority of any single agency's authority to represent the other agencies in such a request. In fact, we were informed by a number of agencies that they could not formally request a joint visit for the other agencies. Second, KRRC felt that it would be unwieldy for our representatives to have to deal with a large group. Our experienced experts counseled our executive committee that a joint visit would not be the best way to address the individual needs of each agency. Third, we wanted to be sure to have the proper personnel and information available. In fact, because of the logistics, a joint visit would be more disruptive to operations than a series of individual agency visits. Finally, as each agency has a specific relationship to KRRC, we do not wish to create the impression that KRRC is allowing each agency to go beyond its normal scope of allowed disclosure.

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 3

KRRC responded courteously to each request and requested information from each agency so that adequate personnel and information could be on hand to address the individual agency's needs. For some of them, we are still working out the logistics. You mention several agencies in your letter. Below, I will summarize the contacts and outcome of each agency mentioned:

1. DCD. No specific visit was requested. No specific purpose for a visit was identified. No specific personnel intended to attend were identified to KRRC.
2. Department of Fish and Wildlife. An initial request was made on March 22, 2010. KRRC made inquiry as to what was needed. Arrangements were made for the visit. On May 12, 2010, an individual agency visit was conducted. KRRC was verbally informed that there were no concerns. We are awaiting a written confirmation. As part of our inquiry, KRRC was informed that there were no documented violations activity on the range.
3. Kitsap County Health District. An initial request was made for an individual agency visit as early as June, 2009. KRRC was informed that the KCHD report would be forwarded to the Department of Ecology. After the first visit, KRRC was told to keep on doing what it was doing. A follow-up visit was conducted 6 months later, in early 2010. He met with our expert, Dan Daniels, Chair of KRRC's Environmental Stewardship Committee. **Attachments 1 and 2** are copies reports KRRC has received regarding those visits. At that time, there were no issues of concern to KCHD or the Department of Ecology.

Additional visits were requested. The most recent request by KCHD was granted, but the scheduled visit was canceled due to illness on the part of Grant Holdcroft. It is my understanding that Grant Holdcroft was going to meet with our Environmental Stewardship Committee Chair to discuss the protocol for water samples. However, KCHD has not called to reschedule. Recently, our Environmental Stewardship chair was himself unavailable due to illness and only recently has become available.

4. Department of Ecology. It is my understanding that the follow-up visits for KCHD described in paragraph 3 above were also for the Department of Ecology. As you may know, our new well was permitted by the Department of Ecology in February, 2010. (KRRC records indicate the fee was paid on February 15, 2010). Work was performed by Gresham Drilling and inspected by the Kitsap County Health District. It is my understanding that Grant Holdcroft and John Kiess were present during the drilling and provided valuable information on the care and maintenance of the well. Due to the DOE's expressed concerns on listed work party activities, KRRC has made it a policy to stay away from any areas of any possible concern pending consultation and if discovered to be necessary, permits are obtained.

Neil R. Wachter
Deputy Prosecuting Attorney
Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 4

5. U.S. Army Corp of Engineers. A first request was made on March 30, 2010. Clarification of the purpose of the visit was requested. This agency was told that an individual visit would be scheduled when the necessary personnel and information were prepared. The arrangements and clarifications are ongoing. Due to meetings with the other agencies and other activities that our volunteer members were conducting regarding our ongoing projects under permit (primarily the new Well), the arrangements for this visit are in the process of being completed.
6. Department of Labor and Industries. As stated above, the Department of Ecology approved the Well permit. Department of Labor and Industries visited KRRC on two occasions to inspect the new well that was constructed on the premises. As far as KRRC is aware, all necessary permits were obtained through their licensed contractor. Approval for the electrical permit should be on file with the Department of Labor and Industries.
7. Suquamish Tribe. No one from the Suquamish Tribe has requested a visit. KRRC would entertain a request for a visit by them. After an appropriate exchange of information detailing the specifics of such a visit, KRRC will be able to make a decision regarding such a visit. Historically, the Suquamish Tribe has never requested a visit in the past and KRRC is not sure how a visit by the Tribe will be helpful to the Tribe. Once KRRC is made aware of the Tribe's needs, KRRC will do its best to accommodate those needs.

As KRRC is professionally set up to provide maximum safety for all users, visitors, and the community, it is not necessary to suspend operations during an inspection. The shooting bays are set up in such a way that a site visit can occur without the need to close down the range. Since a number of agencies have already visited the range, and since KRRC has been advised by its experts that a joint visit would not be the most efficient manner to address specific needs of each agency, KRRC must respectfully decline your request for a joint visit by all of the agencies. KRRC will grant individual requests on a case by case basis. Upon clarification of the purpose of each visit, KRRC will be able to have appropriate, knowledgeable personnel on hand to aid in the visit.

Therefore, in specific response to the agency that you represent, if DCD is interested in scheduling a visit, please have DCD answer the questions on **Attachment 3** and have it returned to KRRC's executive officer, Marcus Carter. There may be follow-up questions. Once KRRC has sufficient information to provide assistance and personnel for the visit, the visit can be granted and the agency will then be notified of available dates and times.

Kitsap County Prosecutor's Office, Civil Division
May 25, 2010
Page 5

Submission of Applications

Regarding the County's request that KRRC "submit all necessary applications for its various building and land moving operations," as far as KRRC is aware, KRRC has submitted all necessary applications to required agencies in the appropriate timeframes. As far as KRRC is aware, KRRC has done nothing that requires the submission of an application for a conditional use permit at this time. KRRC is a private landowner that is complying in good faith with all of the restrictive covenants applicable to its premises.

I appreciate your stated courtesy to KRRC in your letter. However, the "historic" uses of KRRC, i.e. those uses that were in place at the time of the land was deeded to KRRC and before, have not changed. Therefore, it is KRRC's position that there are no land use requirements that were not being followed and a conditional use permit is not required at this time.

Your concluding paragraph seems to imply that the activities of KRRC are deemed a "nuisance" or "detract from the quality of life in our community." These comments are not well received because they imply after the fact that the very reasons why KRRC were granted the land are not valid; your comments are unnecessarily threatening. The gun range is recognized as a important asset to the community. KRRC has not violated any of the covenants in the Bargain and Sale Deed. If your offices are specifically accusing KRRC of a violation of any of the covenants, I would appreciate a specific reference to the specific covenant and the specific act that is alleged to have violated that covenant. I would be especially interested in specific evidence you have that may be of concern and any statutory or regulatory basis for such concern. Upon receipt of this additional information, I will be in a better position to respond and provide appropriate documentation.

Club Deserves Protection

KRRC, its thousands of members (past and present), and thousands of visitors are also part of Kitsap County. As such, they also deserve to be protected by their Prosecutor from false allegations and obvious attempts to abuse the process.

I look forward to your detailed response to this letter.

Very truly yours,

B. REGINA TAYLOR

Kitsap Rifle & Revolver Club Initial Investigation File

Attachment 1

FROM: Grant Holdcroft

RE: INITIAL INVESTIGATION SITE VISIT KITSAP RIFLE & REVOLVER CLUB; ERTS
613497

On June 24, 2009, I visited the Kitsap Rifle & Revolver Club (KRRC) to conduct an Initial Investigation inspection. I had made an appointment. I arrived on site at 10 am and met with Marcus Carter, Brad Smith, Dan ?? and two other gentlemen that were officers of the club. I explained that I had received a complaint from Ecology on lead contamination at the range and I was investigating that concern. I also explained that the EPA BMP Guidance for ranges discusses range contamination issues. I asked if they were familiar with the document and they said Yes. Dan stated that he had a copy. I asked about lead recovery programs. I was told that KRRC has been doing lead recovery for at least 16 years (1993). I asked about documentation. They said that they were starting to document as they just got title to the property but, that they could show that they have had lead recovery working parties through the club newsletter for many years.

We walked across all of the ranges. In general the areas of the property that we walked over were clean and well maintained. There is one large rifle range (200 yards), one large pistol range (50 yards), and about 10 small pistol ranges for competition shooting. All of the small ranges are backed by 8' to 10' high berms. Some trap and skeet shooting takes place on the rifle range. No shooting is allowed above the berms (except for some trap and skeet). Any rifle or pistol shooting above the berms immediately disqualifies the shooter. The impact zones of the ranges are all 95% or more sand. The pistol range is backed by a 10' to 12' high berm that has wetlands on the other side. There were no or little sign of rounds going over the berms on any of the ranges.

We spoke further after the walkthrough. I told the group that what I had seen of the KRRC looked good. I also said that the key points that I had gotten out of the EPA guidance manual was that the lead on the site must be kept within the boundaries of the ranges, a lead recovery program must be in place, and that they must document the lead recovery. Based on what I saw and learned while talking to them the first two items were taken care of appropriately. The documentation of the lead recovery needs to be active and ongoing. I told them that I believed that the complaint was without merit, but that I would make a note in my calendar to check back with them in 6 months to look at their documentation.

We discussed MTCA and the II process. We also talked about sampling. Whether or not I would be tasked by Ecology to sample, what I would sample for, what they could sample for, etc. Dan indicated that the club would be looking at sampling portions of the club for their own information. I left the site about 11 am.

No I have not received any response. I will be emailing and calling Marcus again today. In my last email I indicated he needed to set something up by the end of the month or 1st week in May. Still no response. I will let you know if I hear anything from them. I have no idea why they would want to meet with all the agencies seperately...it will only complicate things for them.

Jess

Dear Patrick,

Just a quick note to let you know that Monday, April 12th, is not logistically possible for a site visit. While we are appreciative of the concern you have expressed in wanting to minimize impact on KRRC's daily operations, we have found it much more productive to deal with individual agencies so we may focus our efforts in addressing their specific needs. I have forwarded your request for the Department of Ecology to visit our facility and will get back to you shortly with information on setting a specific meeting time.

We look forward to meeting with you.

Very truly yours,

--

Subject: RE: request to visit Kitsap Rifle and Revolver Club

Dear Marcus,

The information that you have requested was provided in my March 22, 2010 e-mail (below). I have no written documentation to provide for 5 or 6 below but noted that "On March 2, 2010 I visited a neighboring site located at 4792 Seabeck Highway where I viewed recent clearing along the property line which extended through an existing seasonal stream. This neighbor informed me (and others) of the intent by KR&RC to create a perimeter road around the KR&RC property."

I can only formally request a site visit for my agency, the Department of Ecology, but I have attempted informally, out of respect for KRRC's time, to help coordinate a site visit with the other agencies in the spirit of cooperation and to limit the disruption of your services to your customers. The e-mail which I sent this week on April 4th was intended to provide KRRC with the opportunity to schedule a single unified site visit with others including the Department of Ecology. The other parties who have checked their scheduling, and have determined that they can be present on April 12th include: WDFW habitat biologist, WDFW Enforcement officer, Kitsap County Planning, Kitsap County Health Department, Suquamish Tribe, and the US Army Corps of Engineers. In that it is difficult to schedule with so many agencies at once to conduct a single site visit, I again request that you consider April 12th as a potential opportunity to have a single coordinated site visit. I have included all of the interested parties in this e-mail reply as well as in my earlier communications via e-mail.

Please call me at your earliest convenience so that we may discuss this matter.

Sincerely,

Patrick McGraner

Subject: RE: request to visit Kitsap Rifle and Revolver Club

Dear Mr. McGraner,

We are in receipt of your email dated March 22, 2010 requesting a site visit in order to resolve complaints you have received. As we believe you are aware, KRRC has demonstrated its willingness to work with any agency office we can possibly assist. We are willing to grant your request for a site visit. In order to schedule a date and prepare for your visit by having appropriate persons and information available, we have the following questions:

1. What information can we provide that will be helpful to your review?
2. How much time to you wish to devote to this site visit?
3. What specific area's of the property do you wish to visit?
4. Who will be present at the site visit?
5. Will you provide us with a copy of the complaints that initiated your investigation and current request for a site visit?
6. Will you please provide us with copies of any reports and/or communications, preliminary or otherwise, generated or received by your agency concerning this matter to date?

We look forward to working with you to assist you through this process and hope to utilize your expertise in our current and long range plans.

Very truly yours,

--

Subject: request to visit Kitsap Rifle and Revolver Club

Dear Members of the Board for the Kitsap Rifle and Revolver Club,

Recently the Department of Ecology has received complaints alleging that unauthorized clearing and grading activities have been taking place within the boundaries of your facility. The Department of Ecology is respectfully requesting an opportunity to meet with you or your representative(s) at the facility to determine the validity of these allegations. We would like to coordinate our visit with other local, state and federal agencies so that disruption of your daily operations can be kept at a minimum.

On March 2, 2010 I visited a neighboring site located at 4792 Seabeck Highway where I viewed recent clearing along the property line which extended through an existing seasonal stream. This neighbor informed me (and others) of the intent by KR&RC to create a perimeter road around the KR&RC property. In viewing your own web-site I have found that there is a planned Work Party scheduled for April 17-18, 2010 with one of the proposed actions being to blaze a perimeter road/brushing out property line. Given the extensive wetland areas in the vicinity of your property, it is a concern of Ecology that wetland areas might be negatively impacted from this proposed activity. I believe that it is in the best interest of all parties to discuss the implications of any action(s) that would affect waters of the state and to assist

you in any permitting that may be required. Any work within waters of the state requires authorization from state agencies.

Paul Anderson, another staff person from the Department of Ecology will likely accompany me for the site visit in part because we both need to visit the UW facility on Big Beef Creek to coordinate an educational program that we hope to do at that location.

In summary, Ecology staff requests a coordinated meeting at your facility with local, state, federal and tribal agencies to discuss concerns about alleged violations and or/potential impacts to critical areas that need to be properly permitted. Given that at least some of this activity appears to have already been started (brushing the perimeter), there appears to be an immediate need for the interagency meeting to discuss these actions.

Importance: High

Good Morning Mr. Carter,

Not having heard from you I assume that today will not work. Please call or email me with a range of dates that will work for you or other representatives from the KRRC for a site visit at the end of this month. I may also be able to meet this Wed or Thur. I will be out of the office the week of April the 19th.

Again please note, the proposed road or other work on this property may result in a discharge of dredged or fill material (e.g., fill, excavation, or mechanized land clearing) into wetlands or other waters of the U.S. Under the Corps' Regulatory Program most proposed work in waters of the U.S. requires that you submit a permit application and receive a valid DA permit prior to performing the work.

Sincerely,

Importance: High

Thank you very much for the reply Mr. Carter. I appreciate your cooperation!
Please find below the answers to your questions.

1.& 2. Having not been on site I am unable to say what exact stream or wetland the complaint concerns other than the complaint indicated that there may have been work done on wetlands and streams onsite. This is the assessment we need to make by viewing the site.

3. Recognizing the inconvenience of having to close the range during the site visit, I would like to minimize the closure time to the greatest extent possible. It appears that the range is open at 11am M-F. If were able to meet with you early we could be finished up by 12 noon. Please provide a range of times in the morning that would work for you. I am thinking I could be out there by 8:30 and would be done by 12 noon. If

4. Information on where have you been doing work in the last number of years? What have you done in these areas? Where specifically do you plan to do the future work along the perimeter of KRRC property that you describe on your website, and what specifically are you proposing to do?

5. The recently disturbed areas (last 2-4 years) and the perimeter of the property.

6. Myself and another U.S. Army Corps of Engineers employee. I know that the County, WDFW, Suquamish Tribe, and Ecology are also seeking permission for a site visit. I am only asking permission for the U.S. Army Corps of Engineers. I can not ask permission for the other agencies. That said I would recommend that a joint visit be done so that you can get all of the determinations and recommendations from all the agencies at one time so that you are not asked to provide information or do things that we may not all agree on. This will aid the KRRC in resolving any potential issues (or there may be no issue at all) as you can hear from agencies and get one message versus 3 to 4. Obviously that is your call to make.

7. I do not have a copy of any complaint. I was notified of the possible work anonymously.

8. We do not have any reports other than maps and aerial images available to the general public (Soil maps, National Wetland Inventory maps, Google aerial images). I can provide copies of these maps to you at the site visit. Or if I can assist you in finding these resources online I would be happy to do so.

Please call me today...I will be in meetings until 3:15. I will be working at my desk until 7:00pm or later. I will not be in the office this Thursday (8th) and Friday (9th). I am able to visit the site on Monday the 12th or Tuesday the 13th. If Monday will work I will need you to let me know it will work for you today before 7:00pm. Again The 12th is when all agencies can be onsite and will mean less time for the KRRC needing to shut down the range or have multiple meetings with multiple agencies. Thank you again for your cooperation.

RE: NWS-2010-449, Kitsap Rifle & Revolver Club

Dear Mr. Jordan:

We are in receipt of your letter dated March 30, 2010 requesting a site visit in order to resolve a complaint you received. KRRC is willing to grant your request for a site visit. Concerning the nature of whom we believe to be the complainant(s), upon advice of counsel and in order to schedule a date and prepare for your visit by having appropriate persons and information available, we have the following questions:

1. What specific stream or wetland does the complaint concern?
2. What other inventoried wetlands, creeks, or seasonal streams have you identified as potentially problematic?
3. How much time do you wish to devote to this site visit?
4. What other information will be helpful to your review?
5. What specific areas of the property do you wish to visit?
6. Who will be present at the meeting?
7. Will you provide us with a copy of the complaint(s) that initiated your request for a site visit?
8. Will you please provide us with any reports, preliminary of otherwise, generated by you and your agency concerning this matter to date?

We look forward to working with you.

Very truly yours,

That said I would still like to encourage the USACOE to coordinate with other agencies and the Tribe regarding site visits. I do not think that the policy you have described below necessarily precludes this.

I am attempting to make contact again to see about the 12th. I was previously unaware but have been informed the Corps policy is that when we set up meetings for us to enter the site we cannot arrange for access with the landowners for other agencies, the other agency must make their own arrangements. I have made several calls and have received no response or have reached a number that has been disconnected. Once I receive my letter back from my supervisor I will email it out and cc the agencies involved thus far. In the meantime I will continue to try to make contact.

Thanks,

Jess

Subject: RE: Rifle Range Site Visit- Cancelled!

Both Jess Jordan and Steve Mount contacted me independently via voice-mails today wondering if I have received word from KR&RC regarding the request to have a joint meeting on the site. I have not received a reply or response of any kind. In that their scheduled work-party is coming up mid-month in April, it would be good if we could get an audience with them and visit the site. Jess was wondering about my availability for the week of April 12th. My calendar is full all that week except for Monday April 12th. I just spoke to Steve Mount and he said that he could make it on the 12th. I told Steve that I would send this e-mail to determine how the rest of your schedules look for that date.

What remains to be resolved is for the range to communicate with all of us and to agree to a date -- still, Steve thought we should at least test the waters among us for Monday April 12.

Everyone,

I am sorry to say the meeting is cancelled. I finally received a call back from Marcus today (Friday) who informed me that Monday would not work for him. He explained that for one, the range actually opens to members at 7am - 10pm for seven days a week to members. He also would like to be able to inform members at least a week in advance of any disruption of access to the range. In addition, he would like to bring some information regarding the visit to the board. Once he has all the information, he will give us a day that will work best for them, likely a Tues, Wednesday, or Thursday. Please email the following information to info@gunsafety.org which is for board members.

-Who will attend, name, phone number, email address, agency -Purpose of visit -Have any environmental impacts been observed as a result of the ranges activities -Are there reports documenting violations or illegal activity

He assured me once we sent this information that they would work with us on setting up a site visit.

Bremerton, Washington 98312

Reference: NWS-2010-449
Kitsap Rifle & Revolver Club

Dear Executive Committee for the Kitsap Rifle and Revolver Club:

We recently received a complaint that you placed fill in wetlands and re-routed a stream on the Kitsap Rifle and Revolver Club property located at 4900 Seabeck Highway Northwest near Bremerton, Washington. Under Section 404 of the Clean Water Act, a Department of the Army (DA) permit issued by the U.S. Army Corps of Engineers (Corps) is normally required for the discharge of dredged or fill material (e.g., fill, excavation, or mechanized land clearing) into waters of the U.S., including wetlands and navigable waters of the U.S. Placing fill in wetlands or other waters of the U.S. without a valid DA permit or permit exemption would be a violation of Federal law. For more information, please see the enclosure entitled *Clean Water Act and Rivers and Harbors Act Extracts and Definitions* which describes laws that may apply to the work.

On March 2, 2010, I viewed a portion of the Kitsap Rifle and Revolver Club property from an adjacent property. I observed that you recently cleared and graded along the Kitsap Rifle and Revolver Club property line and may have done this work through a stream that runs from the Kitsap Rifle and Revolver Club property onto an adjacent landowner's property. I also understand you plan to install a road around the perimeter of the Kitsap Rifle and Revolver Club property. The Kitsap Rifle and Revolver Club website indicates a work party is scheduled for April 17-18, 2010, with one of the proposed actions being to "blaze a perimeter road/brushing out property line". Based on available information and after viewing the site from the adjacent property it appears there are wetland and stream areas on the Kitsap Rifle and Revolver Club property.

Please note, the proposed road or other work on this property may result in a discharge of dredged or fill material (e.g., fill, excavation, or mechanized land clearing) into wetlands or other waters of the U.S. Under the Corps' Regulatory Program most proposed work in waters of the U.S. requires that you submit a permit application and receive a valid DA permit prior to performing the work. For additional information on the Corps' Regulatory Program please visit

JORDAN/kal

our website at <http://www.nws.usace.army.mil/> and select Regulatory / Permits from the main menu. For assistance in determining other permit requirements, we recommend you contact the Washington State Office of Regulatory Assistance via their website at <http://www.ora.wa.gov/>.

It appears you may have recently performed work in a water of the U.S. without a valid DA permit. I request an opportunity to inspect this work and to discuss your proposed projects with you or a club representative(s) at a time convenient for you during week of April 12th. Upon receiving this letter please contact me to schedule a site visit.

Your cooperation will be beneficial in resolving this matter. If you have any questions and to schedule a site visit, please contact me at (206) 439-4536 or via email at Dale.J.Jordan@usace.army.mil.

Sincerely

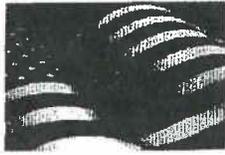

Jess Jordan, Project Manager

Club Work Party Projects

Listed here are specific projects and needs we have at the range to improve and maintain our facilities and Club heritage. Many of these can be done at anytime whether there is a work party or not.

Next Work Party - April 17, 18 2010 - (Tomorrow if you can make it...there is something to do everyday!)

**Check back often as this list will be updated frequently!
Last Update: 03/10/2010**

- Bring in well drilling rig
- Layout ditch work for electrical upgrade and water
- Stake and layout area for new restrooms
- Complete South fence line from Seabeck Hwy to Camp Wesley Harris
- Clean-up of all shooting bays
- General Clean-up
- We need computer capable members to scan old KRRC related photo's at high resolution and save to disc.
- Finish marking and brushing out property line.
- Blaze perimeter road
- Layout and leveling of Action shooting conex boxes
- Clean-up and rebuild the 25 yard line
- Sani-Can Repair/Maintenance
- Organize USABLE "raw materials" and discard trash
- Repair discipline props
- Replace 'danger' signage and add "no trespassing"
- Lead/copper/brass reclamation and recycling
- Move remaining range items from right side of rifle line
- Place remaining gate for bay access
- Skirt office
- Clean roofs and gutters throughout the range.
- Landscaping: General clean-up
- Berm grooming
- Repair drainage from parking lot
- Clean up Seabeck Hwy from Holly Rd. to Calamity Ln.
- Work on Hunter Ed/Archery area
- Target Stands: There are several designs we use for various events. Plans for our primary stands can be found

here in a couple of different formats for a home project.

Each completed stand, material and labor = one

participation credit. PDF Page 1; PDF Page 2; MSWord

- Etcetera

Material Needs

Listed here are material needs we have at the range to finish specific projects and to continue the daily operation our programs and facilities. When you donate materials such as those listed, make sure you get your participation credits card punched for the value to the range.

- Light Poles - 25 to 40 foot would be GREAT! We have 20+ new lights we need to get up in the air!
- Fencing material
- 5 gallon buckets
- Perforated Pipe
- Filter Fabric
- Gravel
- Crushed Asphalt
- Paint and stain! - EXTERIOR ONLY, various colors...bright colors as well as the Club blue and yellow.
- Oak, Walnut, Cherry wood, and acrylics for plaque/awards construction. Scrap, old plaques etc.
- 1 x 2's for target stands.
- \$\$\$\$ for the above and beyond!

Equipment Needed

- Excavators
- Bulldozer
- brush hogs
- Chipper (the larger the better)
- Weedwackers
- Chainsaws
- Rakes
- Shovels
- A large mobile water tank to feed a pressure washer.

Subject: request to visit Kitsap Rifle and Revolver Club

Dear Members of the Board for the Kitsap Rifle and Revolver Club,

Recently the Department of Ecology has received complaints alleging that unauthorized clearing and grading activities have been taking place within the boundaries of your facility. The Department of Ecology is respectfully requesting an opportunity to meet with you or your representative(s) at the facility to determine the validity of these allegations. We would like to coordinate our visit with other local, state and federal agencies so that disruption of your daily operations can be kept at a minimum.

On March 2, 2010 I visited a neighboring site located at 4792 Seabeck Highway where I viewed recent clearing along the property line which extended through an existing seasonal stream. This neighbor informed me (and others) of the intent by KR&RC to create a perimeter road around the KR&RC property. In viewing your own web-site I have found that there is a planned Work Party scheduled for April 17-18, 2010 with one of the proposed actions being to blaze a perimeter road/brushing out property line. Given the extensive wetland areas in the vicinity of your property, it is a concern of Ecology that wetland areas might be negatively impacted from this proposed activity. I believe that it is in the best interest of all parties to discuss the implications of any action(s) that would affect waters of the state and to assist you in any permitting that may be required. Any work within waters of the state requires authorization from state agencies.

Paul Anderson, another staff person from the Department of Ecology will likely accompany me for the site visit in part because we both need to visit the UW facility on Big Beef Creek to coordinate an educational program that we hope to do at that location.

In summary, Ecology staff requests a coordinated meeting at your facility with local, state, federal and tribal agencies to discuss concerns about alleged violations and or/potential impacts to critical areas that need to be properly permitted. Given that at least some of this activity appears to have already been started (brushing the perimeter), there appears to be an immediate need for the interagency meeting to discuss these actions.

Comments:

This is the third Email I have send with out a response. I support the Kitsap Rifle and Revolver club as being the safest venue for recreation and competitive shooting. I can legally shoot on my property but I choose to shoot at KRRC because there is trained staff on hand to enforce safety.

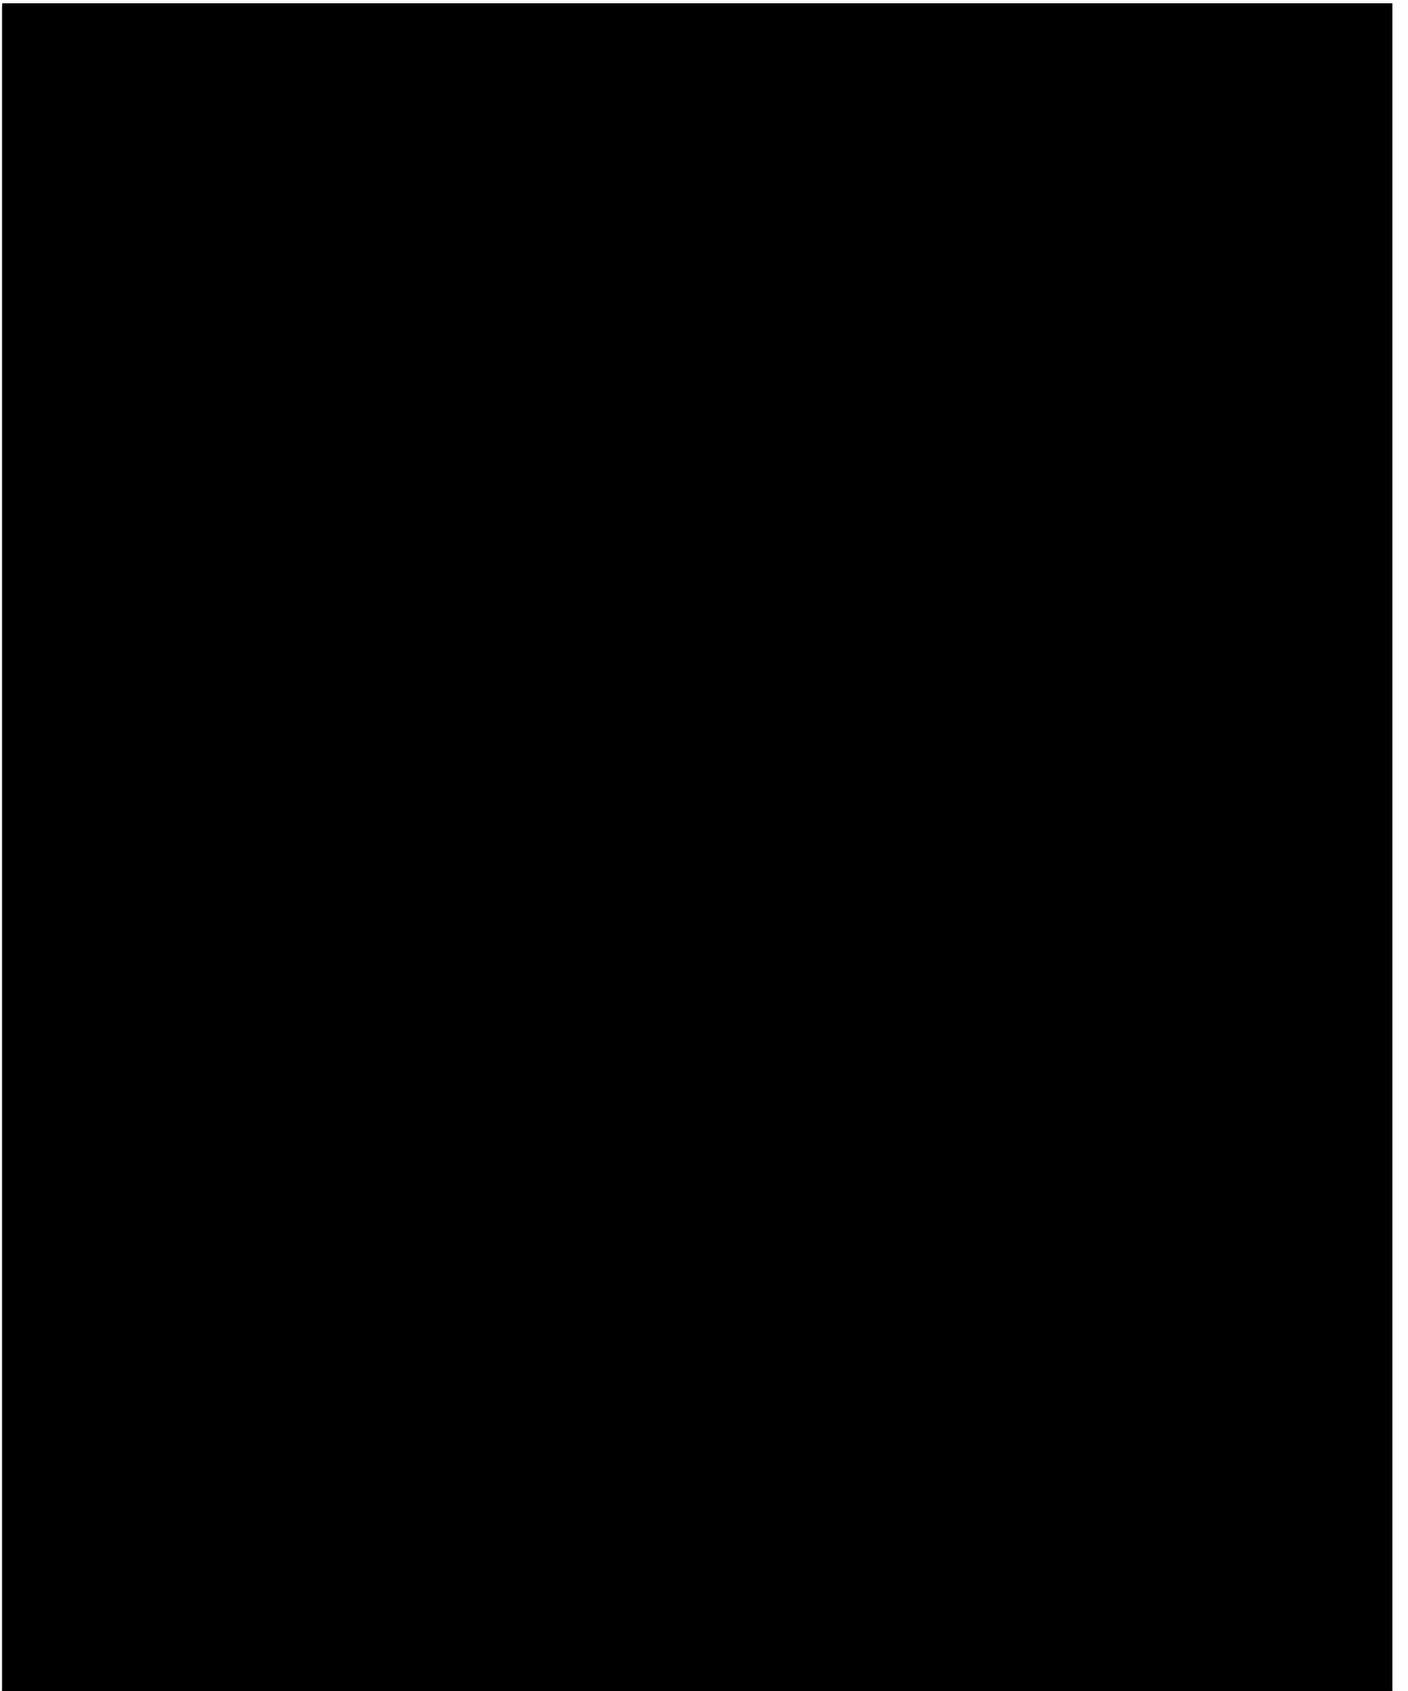

If the Prosecutors office closes KRRC, the public will shoot where they can. This is the safety concern that the Prosecutors office will create. I look forward to hearing from you.

Diane,

Here is a draft email notifying Ms Taylor that her maps are ready and also referencing another item discussed by phone this morning.

Dear Ms Taylor,

The following maps are ready for you to pick up: Tax Parcel Map with Buffer, and Aerial Imagery Maps for 2001, 2005, 2007, and 2009. These are each printed as poster size and as 11x17.

Also, in our phone conversation this morning you had indicated that you might be interested in additional maps showing aerial imagery for a larger area. You had indicated that you would provide me with some roads or addresses to be included in the area of interest. If you are still interested in having me create these maps, please forward me the necessary information, and I can provide you with an updated estimate for that cost.

Subject: RE: Freedom of Information Act Request (FOIA) ICO Kitsap Rifle and Revolver Club

Mr. Gross,

Thank you very much for the maps and other aerial images you have provided me over the last 1.5 months. They have been extremely helpful!

An update on where we are at...I will be calling Mr. Carter again today to request coordination for a site visit. The second letter from the Corps with language regarding EPA's broader enforcement authorities will be in review shortly and will be mailed upon approval. I am in constant coordination with the Department of Ecology, WDFW, and the Suquamish Tribe on this alleged violation. At this point it appears that only WDFW has been able to access the site. I am also in contact with Neil Wachter and Steve Mount from Kitsap County and will assist them in any way that is appropriate and within the jurisdiction of the Corps. I have also had conversations regarding this case with Linda Storm from EPA.

Enforcement procedures can be slow going. Please note that it is a project that we will continue to work on until we reach a conclusion.

Please call or email with any questions or concerns,

Sincerely,

Jess Jordan

Subject: Freedom of Information Act Request (FOIA) ICO Kitsap Rifle and Revolver Club

Ms. Walker and Mr. Jordan, I wish to express my appreciation for your agency's timely and thorough response to my FOIA in the case of correspondence with the Kitsap Rifle and Revolver Club.

I advised Mr. Hynes, your FOIA coordinator, that the Kitsap County Prosecutor's Office has filed a complaint on environmental, construction/development without permitting, and noise nuisance concerns. I have attached a copy of the complaint filing for your reference. Please feel free to share this with Colonel Wright and Ms. Siri Nelson. Mr. Neil Wachter is the Kitsap County Senior Prosecuting Attorney (Civil) assigned to this action.

The first hearing on this complaint will be at 0900 Friday October 8th at the Tacoma City-County Building under Judge Brian Tollefson. The assignment of presiding judge is subject to change.

Please let me know if I may be of any further service.

Sincerely,
Kevin T. Gross

Comment On: Organization

Comments:

It has come to my attention that the Prosecutors Office has filed a law suit against the Kitsap Rifle and Revolver Club. This organization provides a safe environment and give back to community far more than they take. I would like to know " What the issues are" that the prosecutors office is using valuable Kitsap recourses to pursue a Law suit. I just do not understand. Please take the time to outline your position.

Subject: Draft email for KRRC

Diane,

Here is a draft email notifying Ms Taylor that her maps are ready and also referencing another item discussed by phone this morning.

Dear Ms Taylor,

The following maps are ready for you to pick up: Tax Parcel Map with Buffer, and Aerial Imagery Maps for 2001, 2005, 2007, and 2009. These are each printed as poster size and as 11x17.

Also, in our phone conversation this morning you had indicated that you might be interested in additional maps showing aerial imagery for a larger area. You had indicated that you would provide me with some roads or addresses to be included in the area of interest. If you are still interested in having me create these maps, please forward me the necessary information, and I can provide you with an updated estimate for that cost.

Eadie

Subject: Public Records Request

All - Attached is a sample copy of a Pubic Records Request which our office received this week, as well as a draft 5-day letter that will be going out in response. To date I have received 30 identical record requests, including one near identical request from the Kitsap Sun. This does not include 4 other Kitsap Rifle and Revolver Club PDRs that have been received in the past few days. Since all the members of the gun club have been encouraged to submit PDRs, I anticipate even more request.

Due to the broad scope of these requests, almost any office or department could potentially have records related to these requests. As such, PLEASE review your files and forward me copies of any and all records you have that deal with the Kitsap Rifle and Revolver Club and/or any other gun club.

I will work directly with the IS Department to coordinate the collection of email records, so please direct you attention primarily toward any other types of records (reports, studies, presentations, memos, notes, etc.).

Thanks!...and Have a Nice Day! - Don

RE: Public Records Request

Dear Mr. & Mrs. Wamsher,

Thank you for the three public records requests you submitted to the Kitsap County Prosecutor's Office, Kitsap County Sheriff's Office and the Kitsap County Parks and the Recreation Department dated September 23, 2010 and received on September 27, 2010.

You have requested:

"all records, including but not limited to: documents, records of contacts, correspondence, electronic, printed, handwritten, typed, filmed or recorded material, or other representations of any kind, or anything pertaining, describing, referring or relating, directly or indirectly in whole or in part, to the subject matter referenced below.

Any references to "Kitsap Rifle & Revolver Club", "Kitsap Gun Club", "Gun Club", "KRRC", "K.R.R.C." (Herein after "KRRC") or other variations and abbreviations of same. Any references to the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312. And more specifically:

Any references for safety complaints for KRRC and/or the property located at 4900 Seabeck Hwy NW, Bremerton, WA 98312

Any references for safety complaints for other ranges & like facilities (e.g. paintball, archery, etc.)

Any references for other complaints for KRRC (non-safety issue)

Any references for other complaints for other ranges (non-safety issues)

Search every record for permits required of other ranges

Search every record for requests for safety inspections of KRRC

Search every record for requests for safety inspections of other ranges and like facilities

Search every record for every facility that the public goes that must present a "safety plan"?

Every photograph of all shooting ranges on file

Every report on KRRC, & supporting notes

List of neighbors/neighborhoods who claim they are endangered

Every photo of KRRC, aerial or otherwise

Health department reports & records

Wildlife reports and records for said property

Wetlands information (if any) on KRRC land

Correspondence with other agencies about KRRC"

This records request is written very broadly. In order to provide you with the specific records you are requesting and to help our office clarify the scope of this request, could you please provide our office with:

- A specific timeframe for these records?
- Can you clarify what you mean by "Search every record for permits required of other ranges"? Specifically, to what kinds or types of ranges are you referring?
- Can you clarify what you mean by "Search every record for every facility that the public goes that must present a "safety plan"? Does this mean you are requesting records pertaining to the safety instructions/plans for all shooting ranges within the county? If not, to which specific facilities do you refer?

Any clarification you can provide that will help us define the scope of your request would be appreciated.

The Kitsap County Health District is an independent agency. As such, requests for "Health Department reports and records" should be directed directly to that agency. It is also suggested that you directly contact the Washington State Department of Natural Resources and the Washington State Department Fish and Wildlife for records regarding "Wildlife reports and records for said property" and "Wetlands information (if any) on KRRC land". The County will provide records obtained from these agencies, some of which result from records requests answered by the agencies (e.g. DNR). Can you identify other agencies for which you believe the County may possess records?

All records responsive to this request will be reviewed and prepared for release. However, due to the broad scope of your request, our office does not anticipate completing its response any sooner than December 31, 2010. As records become available for release we intend to provide them in installments. We would like your input on whether we should post the records on the county website as they become available.

If for any reason we must withhold or redact information from a document, you will be notified as to which document this applies, and the reason why.

If you have additional questions or concerns please feel free to contact me at any time.

Sincerely,

Don Burger, Records Coordinator

Dear Mr. Dunagan,

Thank you for your public records request dated September 22, 2010 and received in our offices on September 28, 2010.

You have requested: "...a copy of the file or files related to Kitsap Rifle and Revolver Club, including those kept by the Department of Community Development, Prosecuting Attorney's Office and other agencies."

All records responsive to this request will be reviewed and prepared for release. Due to the broad nature of this request we do not anticipate completing this request prior to December 31, 2010. However, in order to expedite the availability of these records, we intend to release the records in installments, as they become available. We anticipate releasing the first installment of records no later than October 14, 2010.

If for any reason we must withhold or redact information from a document, you will be notified as to which document this applies, and the reason why.

If you have additional questions or concerns please feel free to contact me at any time.

Subject: It was a great day !

For the first time in weeks, the KRRC was quiet today. It was also the first time in weeks we've heard the neighborhood kids playing in the backyard, probably because parents were not worried about their kids being shot in their own backyard. We understand that the KRRC is getting ready for a big tournament, and so the danger and the noise will probably be three-fold in the near future. **At least we had one day of peace.**
