

EXAMPLE ELEVATION DRAWINGS

Your proposed project must have reviewable **Elevation Drawings**. Refer to the attached sample drawing for an acceptable format. This plan must contain the following information checked below to be considered reviewable by the Building Department. For additional information, refer to the Residential Building Permit Submittal Checklist.

	Plan must be legible, fully dimensioned or to scale (1/4" = 1" or 1/8" = 1".)
	On additions or alterations, all new work must be clearly designated.
	Show existing areas adjacent to new work.
	Show all sides of structure (north, south, east, west).
	Show final grade, including slope around the building.
	Show all eaves and roof overhangs.
	Indicate roof pitch, show attic vents.
	Show chimneys and termination above roof.
	Show siding type.
	Show all windows and doors in their proper scale and location.
	Show all exterior decks and landings, including distance above grade.
	Show all exterior stairs.

Note: Callouts shown are only examples of how information can be provided and should not be considered complete.
